Singapore, 21 August 2013 – OKH Global Ltd. (“OKH Global”, “傲凯国际有限公司”, “Company”) and its subsidiaries (the “Group”), is proud to announce that it has won a business award for the category of Growth (Large Company) in the 2013 ASEAN Business Awards (ABA) that was held in Brunei Darussalam on 20 August 2013.

In its efforts to bridge ASEAN Governments with its private sectors, the ASEAN Business Advisory Council (ASEAN BAC) launched the ASEAN Business Awards (ABA) in 2007 to recognise enterprises that have contributed to the growth and prosperity of the ASEAN economy. Since then, the annual Awards have recognised more than 60 companies throughout the region which are considered as the ‘Most Admired ASEAN Enterprises’ excelling in the categories of: Growth, Employment, Innovation and Corporate Social Responsibility (CSR).

More details of the ABA can be found here: <http://www.asean-bac.org/asean-business-award.html>

ASEAN BAC was formed following decision of the ASEAN Leaders at the 7th ASEAN Summit and launched in April 2003, with the mandate to provide private sector feedback and guidance to boost ASEAN's efforts towards economic integration.

ABA was conceived to be the first of its kind in the region, with the dual objectives of showcasing home grown ASEAN companies that have become role models for other aspiring companies, as well as providing spotlight for promising ASEAN small and medium enterprises (SMEs) to help them grow to become potential global players.

Selection Process

To ensure the high-quality and independency of such a prestigious award, ASEAN BAC has engaged KPMG as the Strategic Partner. KPMG administers the implementation of the nominations, assessments and selections; as well as assists in promoting the event throughout the ASEAN region.

Companies shortlisted by the Strategic Partner are brought to the attention of an independent judging panel comprising top business leaders, economists and academics from ASEAN countries.

For the award category of Growth (Large Company), the following factors were key considerations:

- Long Term Sustainability of business
- Future Expansion Plan
- Growth Rate in Term of Size
- Business Mode

“Winning this esteemed business award is a proud moment for all of us at OKH Global, this recognition is a direct reflection of how OKH Global has improved the public’s perception of industrial buildings that are integrated with innovative and eco-friendly features,” said OKH Global’s Executive Chairman and CEO, Mr Thomas Bon. “I accept this award on behalf of our workforce, without whose commitment, passion and hard work, we would not be where we are today. Building on our established business foundation in property development, our calibrated plans will enhance our growth presence in Singapore and beyond.”
