The condensed interim financial statements for the financial period ended December 31, 2024 have been prepared in accordance with IAS 34 *Interim Financial Reporting* issued by the International Accounting Standards Board. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group's financial position and performance of the Group.

The accounting policies adopted are consistent with those of the previous financial year which were prepared in accordance with IFRSs, except for the adoption of new and amended standards as set out in Note 2.1.

#### **2.1. New and amended standards adopted by the Group**

On July 1, 2024, the Group and the Company adopted all the new and revised IFRS pronouncements that are relevant to its operations. The adoption of these new/revised IFRS pronouncements does not result in changes to the Group's and the Company's accounting policies and has no material effect on the disclosures or on the amounts reported for the current or prior years.

#### **2.2. Use of judgements and estimates**

In preparing the condensed interim financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the last annual report.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial period are included in the following notes:

## 9. NON-CURRENT ASSET CLASSIFIED AS HELD FOR SALE

On July 25, 2022, the Company's wholly owned subsidiary, OKH (Woodlands) Pte Ltd approved and launched a public tender for the sale of the its investment property located at 12 Tai Seng Link ("12TSL"). A successful bidder for 12TSL was identified and a letter of acceptance in relation to the proposed sale of 12 TSL for a consideration of S\$35,000,000 was issued by the OKH (Woodlands) Pte Ltd to the purchaser on November 8, 2022. As at June 30, 2023, 12TSL was reclassified as non-current asset classified as held for sale and the carrying amount of the investment property was revalued to its realisable value of S\$35,000,000 as management is of the view that the tender will still be completed subjected to approval from the authorities.

On August 9, 2023, approval was still not obtained from the authorities. As time being of the essence in the transaction and there is no indication of when a satisfactory response will be obtained from the authorities, the purchaser ultimately decided to terminate the tender contract on August 9, 2023. The Group continued to classify 12TSL as non-current asset classified as held for sale as the intention of the Group is to sell the property and the Group had continued to actively market the property subsequent to the termination of the tender contract.

The carrying value has been arrived at on the basis of a valuation carried out by a qualified independent professional valuer not connected with the Group, which has appropriate qualifications and recent experiences in valuation of similar properties in the relevant locations as at June 30, 2024.

As at December 31, 2024, the fair value of the Group's investment properties amounting to S\$73,617,000 (June 30, 2024: S\$77,500,000) has been based on the latest appraised values of the investment properties as at June 30, 2024 as there was no significant change to the market conditions.

### Fair value measurement

The fair value of the Group's investment properties is determined based on significant unobservable inputs and is categorised under Level 3 of the fair value measurement hierarchy. The valuations of completed investment properties are determined by:

## 12. INVESTMENT PROPERTIES (CONT'D)

- market comparable approach that reflects recent sales transaction prices for similar properties; or
- income capitalisation approach, which is arrived at by reference to net rental income allowing for reversionary income potential and market evidence of transaction prices for similar properties in the same locations and conditions, where appropriate. The capitalisation rate adopted is made by reference to the yield rates observed by the valuers for similar properties in the locality and adjusted based on the valuers' knowledge of the factors specific to the respective properties.

There has been no change in the valuation technique used in prior years. In estimating the fair value of the properties, highest and best use of the properties is their current use.

##### **Revenue**

The Group posted revenue of approximately S\$5.66 million in the 6 months ended December 31, 2024 (“HYFY2025”) as compared to S\$5.31 million in the 6 months ended December 31, 2023 (“HYFY2024”). The increase in the reported revenue for HYFY2025 was mainly attributed to the higher rental rates from renewal of existing leases and new leases.

##### **Gross profit (“GP”) / Gross profit margin (“GPM”)**

The Group recorded an increase in gross profit of approximately S\$4.53 million in HYFY2025 as compared to approximately S\$4.30 million in HYFY2024 due to the increase in revenue as explained above. There is no significant change in the Group’s GPM as cost of sales increased correspondingly.

##### **Other income**

Other income for HYFY2025 was higher at approximately S\$0.43 million as compared to S\$0.39 million in HYFY2024. Amongst others, the increase was largely attributed to higher gain from the sale of investment properties which was partially offset by no changes in fair value of investment properties for HYFY2025.

##### **General and administrative expenses**

General and administrative expenses decreased by 4.3% from approximately S\$1.88 million in HYFY2024 to S\$1.80 million in HYFY2025. The decrease was largely due to lower professional fees and staff cost incurred in HYFY2025 which was partially offset by the higher repair and maintenance cost.

##### **Finance costs**

Finance costs decreased by 13.6% from approximately S\$1.52 million in HYFY2024 to S\$1.32 million in HYFY2025. The decrease is largely due to the overall lower bank loan balances for HYFY2025.

##### **Income tax expense**

For HYFY2025, income tax expense amounts to S\$0.31 million, this is due to the provision of current year tax due to higher taxable profits for the Group.

### **Condensed interim statements of financial position**

As at December 31, 2024, total current assets stood at approximately S\$41.23 million as compared to S\$41.04 million as at June 30, 2024. The increase in total current assets is mainly due to higher trade and other receivables balance which was partially offset by lower cash and cash equivalent balance due to repayment of loans.

Total non-current assets stood at approximately S\$73.92 million as at December 31, 2024 as compared to approximately S\$77.86 million as at June 30, 2024. The decrease was mainly to the sale of investment properties during the period.

As at December 31, 2024, total current liabilities increased to approximately S\$11.34 million as compared to approximately S\$50.94 million as at June 30, 2024. The decrease was largely attributed to the reclassification of bank loans from current liabilities to non-current liabilities as their maturity date was extended to 31 December 2027. The decrease was partially offset by the reclassification of the loan to a shareholder and its accrued interest from non-current liabilities to current liabilities.

Total non-current liabilities increased to approximately S\$43.00 million as at December 31, 2024 as compared to approximately S\$8.68 million as at June 30, 2024. #### **Net cash from investing activities**

The Group recorded a net cash of approximately S\$4.20 million for the 6 months period ended December 31, 2024 from investing activities as compared to net cash from investing activities of approximately S\$3.29 million in the corresponding period in the preceding year.
