INTEGRATED PROPERTY DEVELOPER IN ASIA

Established in 1998 and headquartered in Singapore, OKH Global Ltd. (“OKH Global” or “the Group”) is an integrated property developer with a strategic focus on logistics and industrial properties.

Interlinking strategic investments with our capabilities in property development, the Group aims to further strengthen our business presence in Asia and beyond.

LETTER TO SHAREHOLDERS

We surpassed various records in FY2015 and these achievements are the result of a clear strategy, strong execution and consistent implementation.

DEAR SHAREHOLDERS,

On behalf of the Board of Directors, it is my pleasure and privilege to present the annual report and audited financial statements of OKH Global Ltd (“OKH Global” or the “Company”) and its subsidiaries (the “Group”) for the financial year ended 30 June 2015 (“FY2015”).

We look back on an exceptional year in which many records set in FY2014 were surpassed. Our revenue of S\$252.7 million and net profit of S\$60.3 million mean that we concluded the best year in the history of our Group. All of these achievements are the result of a clear strategy, strong execution and its consistent implementation.

FORGING NEW STRENGTHS AHEAD

FY2015 has been defined by growth, both acquisition-led in synergistic business ventures and through strong execution of our property development projects.

While our property development business has created a strong foundation for the Group, the cyclical nature of this business creates volatility in our business performance, hence it is pivotal for OKH Global’s long-term success that we continually calibrate our business portfolio to harness new market opportunities and respond to new market trends.

Aligned with this approach, we have taken significant steps to strategically diversify our business and transform OKH Global into a more geographically diversified and value-based Company.

During FY2015, we entered into an agreement to acquire a 15% stake in Pan Asia Logistics Holdings Singapore Pte. Ltd. ("Pan Asia"), an established logistics and supply chain solutions provider, for approximately S\$21.5 million on 18 August 2014.

Established and headquartered in Singapore since 2002, Pan Asia provides fully integrated logistics services and supply chain solutions worldwide. With a longstanding business relationship with European MNCs which includes Mercedes-Benz, Siemens, VARTA, Panasonic, Porsche, BMW, VOLVO, BAYER, BASF, MTU and Continental, Pan Asia has built up a diversified customer base of more than 1,000 customers across various industries.

With the acquisition of Pan Asia, OKH Global will gain immediate access to a fast-growing and established logistics and supply chain solutions provider with extended reach to new geographical markets.

And with the combined capabilities and resources to our business model, OKH Global is pursuing new business opportunities to create integrated logistics solutions for customers that require access to the emerging markets in Asia.

This acquisition marks the Group's second venture with Pan Asia as the Group has previously in FY2013 invested in Pan Asia Logistics Investments Pte Ltd, an associate company of the Group, to develop, own and manage modern logistics properties across Asia. The growing stream of recurring lease income from the associate company in FY2015 is a strong validation to our strategy.

And we believe that this is just the beginning as we further strengthen our business model to be well positioned for the future.

ACKNOWLEDGEMENT AND APPRECIATION

OKH Global's record performance in FY2015 is the result of an outstanding collective performance.

On behalf of the Board and management team, I would like to thank all of our employees for their efforts, dedication and contributions in FY2015.

I would like to extend my gratitude to the Board for its wise counsel in shaping our Group's vision. I would also like to thank our bankers, suppliers and our business partners, who play such a vital role in the Group's growth.

Finally, I would like to thank you, our shareholders, for your ongoing support and commitment to our strategy. We look forward to a continued partnership with our stakeholders ahead as we pursue new opportunities for the future.

FINANCIAL AND OPERATIONS REVIEW

In FY2015, OKH Global achieved another year of record financial performance as all our business segments registered growth with strong execution.

OUR FINANCIAL PERFORMANCE

Our overall revenue increased 13.2% to approximately S\$252.7 million from approximately S\$223.1 million in FY2014, which was mainly attributed to the completion of our industrial property, Woodlands Horizon, which received its Temporary Occupancy Permit ("TOP") in November 2014. Located at Woodlands Avenue 12, Woodlands Horizon comprises of 288 strata-titled units which have been fully sold.

With higher occupancy rate of our investment property, The Herencia, located at Kim Yam Road, revenue recognised from property investment increased by 126.5% to approximately S\$8.3 million in FY2015 as compared to approximately S\$3.6 million in FY2014.

Revenue recognised from the provision of construction services increased by 50.0% to approximately S\$25.1 million in FY2015 as compared to approximately S\$16.7 million in FY2014. The increment was due to the recognition of revenue for the provision of third parties construction services during the financial year.

In FY2015, the Group's overall gross profit increased by 41.9% to approximately S\$65.9 million in FY2015 as compared to approximately S\$46.5 million in FY2014. A substantial portion of the gross profit arose from the contribution from the property development segment with the completion of Woodlands Horizon which was fully sold.

The Group recorded an increase in gross profit margin of approximately 5.3 percentage points from 20.8% in FY2014 to 26.1% in FY2015.

Further bolstering our financial performance, the Group's other income increased 642.2% to approximately S\$27.2 million in FY2015 as compared to approximately S\$3.7 million due to the gain on revaluation of investment properties.

The Group's general and administrative expenses increased by 32.5% to approximately S\$21.9 million in FY2015 as compared to approximately S\$16.5 million in FY2014. The increment was due to higher professional fees, directors' remunerations, sales commissions, donations, property taxes and staff and related expenses.

Finance costs of the Group also increased by 98.8% to approximately S\$7.1 million in FY2015 as compared to approximately S\$3.6 million in FY2014. This was due to an overall higher level of outstanding working capital bank loans, interest on the Redeemable Convertible Preference Shares and higher amount of amortisation of deferred loss on the Redeemable Exchangeable Preference Shares.

Notably, the Group's share of profits in Pan Asia Logistics Investments Holdings Pte. Ltd. increased significantly to approximately S\$4.9 million in FY2015 as compared to approximately S\$1.1 million in FY2014.

Overall, the Group's net profit from continuing operations surged 150.1% to a record of S\$60.3 million in FY2015.

OUR FINANCIAL POSITION

Given the nature of our business activities, our primary financial management approach is to keep the costs of capital relatively low with prudent management of our cash flows. And our strengthening balance sheet position will allow us the flexibility to continue investing in our future.

As a result of higher profits recorded in FY2015, the Group's total equity increased 60.4% to approximately S\$139.1 million as at 30 June 2015 as compared to S\$78.7 million as at 30 June 2014.

As at 30 June 2015, the Group's total current assets stood at approximately S\$323.6 million while total non-current assets increased to approximately S\$168.0 million as at 30 June 2015.

And as at the end of June 2015, the Group's total current liabilities declined significantly to approximately S\$174.6 million due to lower bank loans and overdraft. In addition, trade and other payables reduced to approximately S\$82.1 million from S\$159.2 million as at 30 June 2014. Total non-current liabilities increased to approximately S\$177.9 million which was largely due to increased bank loans outstanding for our property development projects.

Further details of the Group's financial statements in FY2015 can be found in the next few sections of this annual report.

OUR CASH FLOW HIGHLIGHTS

Net cash inflow from operating activities

For the financial period ended 30 June 2015, the Group generated net cash inflow of approximately S\$40.8 million from operating activities as compared to the net cash outflow of approximately S\$95.9 million for the corresponding period last year.

The net cash inflow was primarily due to the cash inflow from properties under development amounting to approximately S\$55.6 million, trade and other receivables of approximately S\$18.2 million. The inflow was partially offset by an outflow of approximately S\$72.2 million in trade and other payables, net income tax paid of approximately S\$5.1 million and interest paid of approximately S\$8.9 million.

Net cash outflow in investing activities

The Group recorded net cash outflow of approximately S\$32.1 million from investing activities as compared to a net cash outflow of approximately S\$37.3 million in the corresponding period last year. The net cash outflow in FY2015 relates mainly to the investment in available-for-sale investment of approximately S\$21.5 million, purchase of property, plant and equipment of approximately S\$1.5 million and additions to investment properties of approximately S\$9.2 million.

Net cash outflow in financing activities

The Group recorded net cash outflow of approximately S\$77.2 million from financing activities as compared to the net cash inflow of S\$155.1 million in the corresponding period last year. The net cash outflow was largely due to higher net repayment in bank loans in FY2015. As a result of the above, the Group recorded a net cash outflow of approximately S\$68.5 million in FY2015. Cash and cash equivalents as at 30 June 2015 stood at (including bank overdraft and fixed deposits pledged that totalled approximately S\$5.2 million) approximately S\$14.2 million.

FINANCIAL HIGHLIGHTS

With OKH Global's core business model in property development, the Group is required to adopt the new Financial Reporting Standards. As a result, the financial performance of the Group in each reporting period may be significantly different depending on the timing of sales and completions of its industrial property development projects in Singapore.

STATEMENT ON CORPORATE GOVERNANCE

INTRODUCTION

The Directors and Management of OKH Global Ltd. (“the Company”) and its subsidiaries (collectively “the Group”) are committed to uphold good corporate governance. This commitment and continuous support of the Code of Corporate Governance 2012 (“the Code”) can be seen from the Directors and Management’s effort to observe high standards of transparency, accountability and integrity in managing the Group’s business in order to create value for its stakeholders and safeguard the Group’s assets.

This Statement describes the practices the Company has undertaken with respect to each of the principles and guidelines and the extent of its compliance with the Code.

BOARD MATTERS

The Board’s Conduct of Affairs

Principle 1: *Every company should be headed by an effective Board to lead and control the company. The Board is collectively responsible for the long-term success of the company. The Board works with Management to achieve this objective and Management remains accountable to the Board.*

The Company is headed by an effective Board, comprising individuals with diversified backgrounds and who collectively brings with them a wide range of experience, to lead and control the Group. The Board is responsible for the overall management and success of the Group.

The principal functions of the Board are, *inter alia*, to:-

- (i) provide entrepreneurial leadership, set strategic objectives, and ensure that the necessary financial and human resources are in place for the Group to meet its objectives;
- (ii) establish a framework of prudent and effective controls which enables risk to be assessed and managed, including safeguarding of shareholders’ interests and the Company’s assets;
- (iii) review management performance;
- (v) identify the key stakeholder groups and recognise that their perceptions affect the Company’s reputation;
- (vi) set the Group’s values and standards (including ethical standards), and ensure that obligations to the shareholders and other stakeholders are understood and met; and
- (vii) consider sustainability issues, e.g. environmental and social factors, as part of its strategic formulation.

All Directors objectively discharge their duties and responsibilities at all times as fiduciaries in the interests of the Company.

To assist in the execution of its responsibilities, the Board has established Board Committees, namely Audit Committee (“AC”), Nominating Committee (“NC”) and Remuneration Committee (“RC”). These Board Committees function within clearly defined terms of references and operating procedures, which are reviewed by the Board on a regular basis to enhance the effectiveness of these Board Committees. The roles and responsibilities of these Board Committees are provided for in the latter sections of this Statement on Corporate Governance.

The Board meets on a regular basis as and when necessary, to address any specific significant matters that may arise.

The incoming Directors were also provided with information relating to corporate conduct and governance including continuing disclosure requirements as required by the Listing Manual of the Singapore Exchange Securities Trading Limited (“SGX-ST”), disclosure of interests in securities, restrictions on disclosure of confidential or price sensitive information and etc. All Directors are also encouraged to receive regular training such as professional development on new laws, regulations and changing commercial risks, so as to enable them to contribute effectively to the Board or Board Committees.

STATEMENT ON CORPORATE GOVERNANCE

Pursuant to Bye-Law 125 of the Company's Bye-Laws, the Directors of the Company may participate in any meeting of the Board or any Board Committees, which may be held by means of such telephonic, electronic or other communication facilities, allowing all persons participating in the meeting to communicate with each other simultaneously and instantaneously.

The number of Board and Board Committees meetings held during the financial year ended 30 June 2015 ("FY2015") and the attendance of each Director where relevant is as follows:-

Type of meetings	Board	Audit Committee	Nominating Committee	Remuneration Committee
No. of meetings	4	4	1	1
Attendance				
Mr Bon Ween Foong	4/4	N/A	N/A	N/A
Mr Lam Wee Veow ¹	4/4	N/A	N/A	N/A
Mr Tan Geok Chye	3/4	N/A	N/A	N/A
Mr Ong Soon Teik	4/4	4/4	1/1	1/1
Mr Lim Eng Hoe	4/4	4/4	1/1	1/1
Mr Lee Teck Leng Robson	4/4	4/4	1/1	1/1

Note:

¹ Mr Lam Wee Veow resigned on 31 July 2015.

The Board has identified the following areas for which the Board has direct responsibility for decision making within the Group:-

- Approval of the Group's major investments/divestment and funding decisions;
- Approval of the Group's interim and full-year financial result announcements for release to the SGX-ST;
- Approval of any agreement which is not in the ordinary course of business;
- Approval of any major borrowings or corporate guarantees in relation to borrowings;
- Entering into any profit-sharing arrangement;
- Entering into any foreign exchange hedging transactions;
- Appointment or removal of any key executive and legal representative;
- Incorporation or dissolution of any subsidiary;
- Issuance of shares or declaration of dividends;
- Approval of the annual report and audited financial statements;

STATEMENT ON CORPORATE GOVERNANCE

- Convening of general meetings;
- Approval of corporate strategies;
- Approval of material acquisitions and disposal of assets; and
- Approval of announcements or press releases concerning the Group for release to the SGX-ST

A new Director will upon appointment be given opportunities to receive appropriate briefing or material to ensure that he/she is aware of the roles and responsibilities of a director of a public listed company in Singapore and training to familiarise with the Group's business and governance practices.

In addition, the Board of Directors of the Company is encouraged to attend appropriate or relevant courses, conferences and seminars and the costs would be borne by the Company. The Board has received updates on changes in listing rules, regulatory requirements, corporate governance guidelines and best practices on regular basis.

Board Composition and Guidance

Principle 2: *There should be a strong and independent element on the Board, which is able to exercise objective judgement on corporate affairs independently, in particular, from Management and 10% shareholders. No individual or small group of individuals should be allowed to dominate the Board's decision making.*

The current Board consists of five (5) members comprising the Executive Chairman, who is also the Chief Executive Officer ("CEO") of the Company, one (1) Executive Director, and three (3) Non-Executive and Independent Directors:-

Executive Chairman and CEO

Mr Bon Ween Foong

Executive Director

Mr Tan Geok Chye

Non-Executive and Independent Directors

Mr Ong Soon Teik

Mr Lim Eng Hoe

Mr Lee Teck Leng Robson

The profile of each Director is presented on pages 4 to 5 of this Annual Report.

On an annual basis, each Director is required to complete a 'Confirmation of Independence' form to confirm his independence. The said form, which was drawn up based on the definitions and guidelines set forth in Guideline 2.3 of the Code and the Guidebook for Audit Committees in Singapore issued by Audit Committee Guidance Committee ("Guidebook"), requires each Director to assess whether he considers himself independent despite not having any of the relationships identified in the Code.

The NC noted that the Independent Directors should make up at least half of the Board pursuant to Guideline 2.2 of the Code where the Chairman of the Board and the CEO is the same person. Accordingly, the NC has reviewed the forms completed by each Director and is satisfied that the Board complies with the Code's requirement that at least half of the Board should be made up of Independent Directors.

The Board regularly examines its size and after taking into account the scope and nature of the Group's operations, the diversified background and experience of the Directors that provide core competencies in areas such as finance or accounting, legal, business or management experience, industry knowledge, strategic planning experience and customer-based experience or knowledge. The Board is satisfied that it is of an appropriate size to facilitate effective decision making.

STATEMENT ON CORPORATE GOVERNANCE

Although all the Directors have an equal responsibility for the Group's operations, the role of the Independent Directors is particularly important in ensuring that the strategies proposed by Management are constructively challenged, taking into account the long-term interests of shareholders. The Independent Directors participate actively during Board meetings and would constructively challenge and help to develop proposals on short term and long term business strategy and review the performance of Management in meeting agreed goals and objectives and monitor the reporting of performance.

The Independent Directors are encouraged to meet, without the presence of Management so as to facilitate a more effective check on Management.

None of the Independent Directors has served on the Board beyond nine years from the date of his appointment.

Chairman and Chief Executive Officer

Principle 3: *There should be a clear division of responsibilities between the leadership of the Board and the executives responsible for managing the company's business. No one individual should represent a considerable concentration of power.*

The Chairman and CEO of the Company is Mr Bon Ween Foong. Mr Bon assumes the roles of both Chairman and CEO as he is the founder of OKH Group. He has extensive experience in the property development industry and has played an instrumental role in establishing the strategic direction of the Group and in the overall management of the Group's business. The Board is of the view that it is in the best interest of the Group to adopt a single leadership structure, and there are sufficient safeguards in place to ensure that the Management is accountable to the Board as a whole.

The Chairman and CEO of the Company leads the Board to ensure its effectiveness on all aspects of its role. He ensures that Board meetings are held in each quarter of financial year and as and when necessary, sets Board meeting agenda, promotes a culture of openness and debate at the Board and ensures that adequate time is available for discussion of all agenda items, in particular strategic issues. The Chairman and CEO of the Company ensures that Board members are provided with complete, adequate and timely information on a regular basis to enable them to be fully cognizant of the affairs of the Group as well as effective communication with shareholders. He encourages constructive relations and effective contribution within the Board and between the Board and the Management. He also takes a leading role in ensuring the Company strives to achieve and maintain high standards of corporate governance.

Although the roles and responsibilities of the Chairman and CEO are vested in Mr Bon Ween Foong, major decisions are made in consultation with the Board, where more than half of which comprises Independent Directors. The Board is of the opinion that the process of decision making by the Board has been independent and has been based on collective decisions without any individual or small group of individuals dominating the Board's decision making.

The Company is in compliance with the Guideline 3.3 of the Code, where Mr. Ong Soon Teik, is appointed as the Lead Independent Director. In order to promote high standards of corporate governance and effective communication between the shareholders and the Company, Mr. Ong Soon Teik is available to shareholders who may have concerns with regards to the Group and for which contacts through the normal channels of the Chairman and CEO, Executive Director or Chief Financial Officer have failed to resolve issues or for which such contact is inappropriate. Such concerns may be sent to his e-mail address at ongst100@gmail.com.

The Independent Directors are encouraged to meet periodically without the presence of the other Directors and led by the Lead Independent Director. The Lead Independent Director should provide feedback to the Chairman after such meetings.

Board Membership

Principle 4: *There should be a formal and transparent process for the appointment and re-appointment of directors to the Board.*

The Company has established a NC to make recommendations to the Board on all board appointments and re-appointments. The NC comprises the following three (3) Directors, all of whom are Non-Executive and Independent Directors:-

Mr Lee Teck Leng Robson (Chairman)
Mr Ong Soon Teik (Member)
Mr Lim Eng Hoe (Member)

STATEMENT ON CORPORATE GOVERNANCE

The Company is in compliance with the Guideline 4.1 of the Code, where Mr Ong Soon Teik, the Lead Independent Director of the Company, is also a member of NC.

The NC is governed by the NC's Terms of Reference which describes the duties and functions of the NC.

The duties and functions of the NC are as follows:-

- (a) to make recommendations to the Board on all board appointments, including re-election and re-appointment by taking into account the composition and progressive renewal of the Board and each Director's contribution and performance (e.g. attendance, preparedness, participation, candour and any other salient points);
- (b) to determine annually whether a Director is independent;
- (c) to review the Board succession plans for directors, in particular, for the Chairman and the CEO;
- (d) to review the training and professional development programmes for the Board;
- (e) where a Director has multiple board representations and other principal commitments, to decide whether the Director is able to and has adequately carried out his/her duties as Director, taking into account the competing time commitments that he/she faces when serving on multiple boards and other principal commitments, and to decide the maximum number of listed company board representations which any director may hold; and
- (f) to decide on the process for evaluation of the performance of the Board, the Board Committees and Directors.

The Company's Bye-Laws further provides that at each AGM one-third of the Directors for the time being, or if their number is not three or multiple of three, then the number nearest to one-third but not less than one-third shall retire by rotation and that all Directors shall retire at least once every three years and such retiring Director shall be eligible for re-election. Each member of the NC shall abstain from voting on any resolutions in respect to his re-nomination as a Director.

The details of Mr Bon Ween Foong and Mr Lim Eng Hoe, who will retire by rotation at the forthcoming AGM to be held on 29 October 2015 are disclosed in the Directors' Profile on pages 4 to 5 of this Annual Report.

The NC has recommended and the Board has approved the re-election of Mr Bon Ween Foong and Mr Lim Eng Hoe, who are retiring at the forthcoming AGM as Directors of the Company. Mr Bon Ween Foong and Mr Lim Eng Hoe will abstain from voting on any resolution related to their appointment.

Despite some of the Directors having other Board representations, the NC is satisfied that these Directors are able to and have adequately carried out their duties as Directors of the Company. There is no alternate Director on the Board.

Where a vacancy arises, the NC will consider each candidate for directorship based on the selection criteria determined after consultation with the Board and after taking into consideration the qualification and experience of such candidate, his ability to increase the effectiveness of the Board and to add value to the Group's business in line with its strategic objectives. The NC will recommend the suitable candidate to the Board for approval.

STATEMENT ON CORPORATE GOVERNANCE

Key information regarding the Directors is set out below:

Board Performance

Principle 5: *There should be a formal annual assessment of the effectiveness of the Board as a whole and its board committees and the contribution by each director to the effectiveness of the Board.*

On an annual basis, the NC in consultation with the Chairman of the Board, will review and evaluate the performance of the Board as a whole, its Board Committees and each Director taking into consideration the attendance record and participation at the meetings of the Board and Board Committees and the contribution of the Board.

Each Director is requested to complete an evaluation form to assess the effectiveness of the Board as a whole. The performance criteria for the Board evaluation includes an evaluation of the size and composition of the Board, the Board's access to information, the Board processes and accountability, Board performance in relation to discharging its principal responsibilities, communication with key management personnel and the Directors' standards of conduct.

STATEMENT ON CORPORATE GOVERNANCE

In line with the Code, the Board had implemented a process to be carried out by the NC to assess the effectiveness of the Board Committees and the contribution of each individual Director to the effectiveness of the Board including the commitment of time for meetings of the Board and Board Committees. The members of the respective Board Committees were requested to complete the evaluation forms to assess the effectiveness of the Board Committees.

Access to Information

Principle 6: *In order to fulfil their responsibilities, directors should be provided with complete, adequate and timely information prior to board meetings and on an on-going basis so as to enable them to make informed decisions to discharge their duties and responsibilities.*

The Board has separate and independent access to the key management personnel of the Group at all times. Requests for information are dealt promptly by the Management. In addition, the Board is kept informed of all material events and transactions as and when they occur to enable the Board to function effectively and to fulfil its responsibilities. The information made available to the Directors is in various forms such as interim and full-year financial results, progress reports of the Group's operations, budgets and forecasts, corporate development, regulatory updates, business developments and audit reports. The Management also consults Board members regularly whenever necessary and appropriate. The Board is issued with Board papers timely prior to Board meetings to enable Directors to consider the issues and to obtain additional information or explanation from the Management, if necessary.

The calendar of Board and Board Committees meetings are planned a year in advance. Draft agendas for meetings of the Board and Board Committees are also circulated in advance to the respective Chairman of the Board and Board Committees, in order for them to suggest items for the agenda and/or review the usefulness of the items in the proposed agendas.

The Directors also have separate and independent access to the Company Secretary. The role of the Company Secretary and/or his representatives is to administer, attend and prepare minutes of Board and Board Committees' meetings, assist the Chairman in ensuring that Board procedures are followed and that the Company's Bye-Laws, the Listing Manual of the SGX-ST and other relevant rules and regulations applicable to the Company are complied with. The Company Secretary and/or his representatives attend all Board and Board Committees' meetings. The decision in appointment and removal of the Company Secretary is decided by the Board as a whole.

The Board in fulfilling its responsibilities could as a group or as individuals, when deemed fit, direct the Company to appoint independent professional advisers or seek professional advice and the costs will be borne by the Company.

REMUNERATION MATTERS

PROCEDURES FOR DEVELOPING REMUNERATION POLICIES

Principle 7: *There should be a formal and transparent procedure for developing policy on executive remuneration and for fixing the remuneration packages of individual directors. No director should be involved in deciding his own remuneration.*

The RC comprises the following three (3) Directors, all of whom including the Chairman of the RC, are Non-Executive and Independent Directors:-

Mr Lim Eng Hoe (Chairman)
Mr Ong Soon Teik (Member)
Mr Lee Teck Leng Robson (Member)

The RC is governed by the RC's Terms of Reference which describes the duties and powers of the RC.

STATEMENT ON CORPORATE GOVERNANCE

The RC is responsible:

- (a) to recommend to the Board a general framework of remuneration for Directors and key management personnel (including the CEO and other persons having authority and responsibility for planning, directing and controlling activities of the Company and Group), and to determine specific remuneration packages for each Executive Director as well as key management personnel. The RC's recommendations should cover all aspects of remuneration including but not limited to directors' fees, salaries, allowances, bonuses, options, share-based incentives and awards, and benefits in kind;
- (b) in the case of service contracts of Executive Directors and key management personnel, to review and to recommend to the Board, the terms of renewal of service contracts and to ensure the service contracts contain fair and reasonable termination clauses which are not overly generous in the event of termination. The RC aims to be fair and avoid rewarding poor performance;
- (c) to administer OKH Performance Share Plan; and
- (d) to appoint such professional consultancy firm deemed necessary to enable the RC to discharge its duties satisfactorily.

The RC's recommendations are made in consultation with the Chairman of the Board and submitted to the entire Board for endorsement.

The respective Directors of the Company will not be involved in the discussion in deciding their own remuneration.

The RC has full authority to engage any external independent professional advice on matters relating to remuneration as and when the need arises. The expense of such services shall be borne by the Company.

Level and Mix of Remuneration

Principle 8: *The level and structure of remuneration should be aligned with the long-term interest and risk policies of the company, and should be appropriate to attract, retain and motivate (a) the directors to provide good stewardship of the company, and (b) key management personnel to successfully manage the company. However, companies should avoid paying more than is necessary for this purpose.*

In setting remuneration packages for Executive Directors and key management personnel, the performance related elements of remuneration form a portion of the total remuneration package to link rewards to corporate and individual performance. This is to align the Executive Directors' interests with those of shareholders of the Company and to promote the long-term success of the Group and the Company. The RC will also take into consideration the risk policies of the Company, as well as the pay and employment conditions within the industry and in comparable companies.

The Independent Directors are paid Directors' fees taking into account factors including but not limited to contribution, effort and time spent, and the responsibilities of the Non-Executive and Independent Directors. Non-Executive Directors are not over-compensated to the extent that their independence may be compromised. The Directors' fees payable to the Independent Directors of the Company each year are subject to the approval of the Company's shareholders at the AGM.

The Executive Directors do not receive Directors' fees. The remuneration packages of the Executive Directors and the key management personnel comprise primarily a basic salary component and a variable component which is the bonuses and other benefits.

The service agreements entered into with the two Executive Directors, namely Mr Bon Ween Foong and Mr Tan Geok Chye are for an initial period of three years. These service agreements are subject to review by the RC and provide for termination by either party giving to the other not less than 6 months' prior written notice.

STATEMENT ON CORPORATE GOVERNANCE

The RC may recommend the Company to consider the use of contractual provisions to allow the Company to reclaim incentive components of remuneration from Executive Directors and key management personnel in exceptional circumstances of misstatement of financial results or misconduct resulting in financial loss to the Company.

Disclosure of Remuneration

Principle 9: *Every company should provide clear disclosure of its remuneration policy, level and mix of remuneration, and the procedure for setting remuneration in the company's Annual Report. It should provide disclosure in relation to its remuneration policies to enable investors to understand the link between remuneration paid to directors and key management personnel, and performance.*

The remuneration of the Directors and the key management personnel of the Group, who are not Directors of the Company, for the financial year ended 30 June 2015, are disclosed below.

The breakdown of each Directors' and key management personnel's remuneration of the Group for the financial year ended 30 June 2015 is as follows:

Board of Directors	Salary \$	Bonus/ Commissions \$	Benefits in Kind \$	Directors' Fees \$	Total \$
Bon Ween Foong	600,000	3,324,800	509,800	12,000	4,446,600
Lam Wee Veow ¹	150,000	12,500	49,900	12,000	224,400
Tan Geok Chye	219,000	20,000	55,100	-	294,000
Ong Soon Teik	-	-	-	67,000	67,000
Lim Eng Hoe	-	-	-	52,000	52,000
Lee Teck Leng Robson	-	-	-	52,000	52,000

Notes:

¹ Mr Lam Wee Veow resigned on 31 July 2015.

Key Management Personnel	Salary %	Bonus/ Commissions %	Benefits in Kind %	Total %
Below S\$250,000				
Francis Lee	83	-	17	100
Ang E-May	75	6	19	100
Ong Sau Kang	72	6	22	100
Julian Veap	77	6	17	100

The aggregate total remuneration paid to the top four key management personnel (who are not Directors or the CEO) for the financial year ended 30 June 2015 is approximately S\$532,000. Due to the highly competitive market, the Company believes it is unwise to disclose the breakdown of the remuneration of the key management personnel.

None of the Directors (including the CEO) and the top four key management personnel (who are not Directors or the CEO) has received any termination, retirement and post-employment benefits for the financial year ended 30 June 2015.

There is no employee who is immediate family member of a Director, CEO or substantial shareholder whose remuneration exceeds S\$50,000 for the financial year ended 30 June 2015.

STATEMENT ON CORPORATE GOVERNANCE

The RC has reviewed and approved the remuneration packages of the Directors and key management personnel, having regard to their contributions as well as the financial performance and commercial needs of the Group and has ensured that the Directors and key management personnel are adequate but not excessively remunerated. The RC will consider and deliberate on the performance conditions to which entitlement to short term and long term incentive schemes are subject and make the necessary disclosures, if any.

The shareholders of the Company had during the Special General Meeting held on 23 January 2013 approved and adopted the employee share scheme known as the OKH Performance Share Plan. The principal terms of the OKH Performance Share Plan is set out in the Circular to Shareholders dated 31 December 2012 on pages F-1 to F-18. As at the date of the annual report, the Company had not granted share awards to any employees under the OKH Performance Share Plan.

ACCOUNTABILITY AND AUDIT

Accountability

Principle 10: *The Board should present a balanced and understandable assessment of the company's performance, position and prospects.*

The Board is responsible for providing a balanced and understandable assessment of the Group's performance, position and prospects, to the public, the regulators and the shareholders of the Company.

The Board is accountable to the shareholders of the Company and is mindful of its obligations to furnish timely information and to ensure full disclosure of material information in compliance with the statutory requirements and the Listing Manual of the SGX-ST. For interim financial statements, the Board provides a negative assurance confirmation to shareholders, in line with Rule 705(5) of the Listing Manual of SGX-ST. For the financial year under review, the Executive Directors and the Chief Financial Officer have provided assurance to the Board on the integrity of the Group's financial statements.

Any price sensitive information will be publicly released either before the Company meets with any group of investors or analysts or simultaneously with such meetings. Financial results and annual reports are announced and issued within the statutory prescribed periods.

The Management understands its role to provide all members of the Board with management accounts and such explanation and information in a balanced and informed assessment of the Company's performance, position and prospects.

Risk Management and Internal Controls

Principle 11: *The Board is responsible for the governance of risk. The Board should ensure that Management maintains a sound system of risk management and internal controls to safeguard shareholders' interests and the company's assets, and should determine the nature and extent of the significant risks which the Board is willing to take in achieving its strategic objectives.*

The Board regularly reviews and improves its business and operational activities to identify areas of significant business risks as well as take appropriate measures to control, manage and mitigate these risks. The Management reviews the risk management and internal control systems and highlights all significant matters to the AC and Board from time to time.

The Board acknowledges that it is responsible for the Company to maintain an adequate system of risk management and internal controls to safeguard the assets of the Group. In addition, it is essential to maintain adequate accounting records, develop and maintain an effective control environment within the Group. The Board recognizes that all internal control systems contain inherent limitations and no system of internal controls could provide absolute assurance against the occurrence of material errors, poor judgement in decision-making, human error, losses, fraud or other irregularities. Nevertheless, the Board strives to identify key risk areas in every aspect of the Group and improve internal controls to mitigate such risks in order to achieve the overall business objective of the Group and enhance long term shareholders' value.

The Board and the AC have made reference to the internal audit reports submitted by the internal auditors for the financial year ended 30 June 2015 and management confirmations to assess the effectiveness of the Group's internal control systems.

STATEMENT ON CORPORATE GOVERNANCE

The Company has appointed KPMG Services Pte. Ltd as the Group's internal auditors for the Group's operations in Singapore, to review the effectiveness of the Group's internal controls in light of the key business and financial risks affecting its business.

The AC also reviews the effectiveness of the actions taken by the Management on the recommendations made by the external auditors in this respect. The AC, with the participation of the Board, has reviewed the adequacy of the Group's internal controls that address financial, operational, compliance and information technology risks and risk management systems for the type and volume of business that the Group currently operates.

The Board would ensure that there is an on-going process for identifying, evaluating and managing significant risks covering financial aspects, compliance risks and other operational areas of the Group.

For FY2015, the Board has received assurances from the Executive Directors (including CEO) and the Chief Financial Officer of the Company that (a) the financial records have been properly maintained and the financial statements give a true and fair view of the Group's operations and finances; and (b) the Group's risk management and internal control systems are sufficiently effective.

Based on the internal control weaknesses noted during the course of audit by the external auditors and their recommendations, the various management controls put in place, and reports from the internal auditors, the Board, with concurrence from the AC, are satisfied with the Group's internal controls and are of the opinion that the internal controls maintained by the Group in addressing critical and significant risks relating to financial, operational, compliance and information technology risks and risk management systems are adequate and effective as at 30 June 2015. The Board will also continue to enhance and improve the existing internal controls framework to identify and mitigate these risks. The AC will also commission an annual internal audit to satisfy itself that the Group's internal controls are robust and effective to address any significant internal control weaknesses that may arise.

The Board will consider the necessity of establishing a separate Board risk committee when the need arises.

Audit Committee

Principle 12: The Board should establish an Audit Committee with written terms of reference which clearly set out its authority and duties.

The AC comprises the following three Directors, all of whom are Non-Executive and Independent Directors:-

Mr Ong Soon Teik (Chairman)
Mr Lim Eng Hoe (Member)
Mr Lee Teck Leng Robson (Member)

The Board ensures that the members of the AC are appropriately qualified to discharge their responsibilities. The Chairman of the AC, Mr Ong Soon Teik and members of the AC, Mr Lim Eng Hoe and Mr Lee Teck Leng Robson, possess requisite accounting and financial management expertise and experience.

The AC is governed by its Terms of Reference which highlights its duties and functions as follows:

- (a) to review with the external and internal auditors, the audit plan, their audit report, management letter and the Management's response;
- (b) to review the scope and results of audit and its cost effectiveness and the independence and objectivity of the external auditors. Where the external auditors also provide a substantial volume of non-audit services to the Group, to review the nature and extent of such services to maintain the balance of objectivity and value for money;
- (c) to review the interim and full-year financial results of the Company and the consolidated financial statements of the Group before submission to the Board for approval, focusing in particular on changes in accounting policies and practices, major risk areas, significant adjustments resulting from the audit, compliance with accounting standards and compliance with the Listing Manual of the SGX-ST and any other relevant statutory or regulatory requirements;

STATEMENT ON CORPORATE GOVERNANCE

- (d) to review annually the risk profile of the Company and the adequacy and effectiveness of the Company's internal controls including financial, operational, compliance and information technology controls and risk management systems;
- (e) to review the scope and results of the internal audit procedures as well as risk management policy covering risk frameworks, models and limits to the Board for approval;
- (f) to consider and make recommendations to the Board on the appointment, re-appointment and removal of external auditors and internal auditors, their remuneration and terms of engagement;
- (g) to review the adequacy of the internal audit function annually and ensure that a clear reporting structure is in place between the AC and the internal auditors;
- (h) to meet with the external and internal auditors without the presence of the Management annually to review the assistance given by the Management to the external and internal auditors and any matters which the external and internal auditors would like to draw to the AC's attention;
- (i) to review interested persons transactions ("IPTs") to comply with the rules of the Listing Manual of the SGX-ST and other relevant statutory requirements and any potential conflicts of interest; and
- (j) to commission and review the findings of internal investigations into matters where there is any suspected fraud or irregularity, or failure of internal controls or infringement of any law within or outside the jurisdiction of Singapore, rules or regulations which has or is likely to have a material impact on the operating results and financial position of the Group.

The AC has the power to conduct and authorise investigations into matters within the AC's scope of responsibility. The AC also has full access to and co-operation of the Company's Management and has full discretion to invite any Director or executive officer to attend the AC meetings, and has been given reasonable resources to enable it to discharge its functions.

The AC has direct access to the internal and external auditors and has met with them without the presence of the Management annually.

In July 2010, the Singapore Exchange Limited and Accounting and Corporate Regulatory Authority launched the "Guidance to Audit Committees on Evaluation of Quality of Work performed by External Auditors" which aims to facilitate the AC in evaluating the external auditors. Accordingly, the AC had evaluated the performance of the external auditors based on the key indicators of audit quality set out in the Guidance such as performance, adequacy of resources and experience of their audit engagement partner and auditing team assigned to the Group's audit, the size and complexity of the Group.

The Company has paid the following aggregate amount of fees to Deloitte & Touche LLP, the external auditors, for services rendered in for the financial year ended 30 June 2015:-

Services	Amount (SGD)
Audit service	299,000
Other assurance fee	85,000
Non-audit service - Tax Compliance	35,500
Total	<u>419,500</u>

The AC had reviewed all audit and non-audit fee paid to Deloitte & Touche LLP, the scope of services, the qualification, the independence and the objectivity of the external auditors in the meeting held in 2015. Deloitte & Touche LLP has confirmed that they are public accounting firms registered with the Accounting and Corporate Regulatory Authority and provided a confirmation on their independence to the AC.

The AC is satisfied that Deloitte & Touche LLP are able to meet the audit requirements and statutory obligation of the Company. In view of their requisite qualification and independence status, the AC is satisfied that Rule 712 of the Listing Manual of the SGX-ST is complied with. Accordingly, Deloitte & Touche LLP is recommended for re-appointment at the forthcoming AGM.

STATEMENT ON CORPORATE GOVERNANCE

The Company has complied with Rule 715 of the Listing Manual of the SGX-ST as Deloitte & Touche LLP was engaged as the external auditors for the Company and its subsidiaries in Singapore.

The Group has in place a Whistle Blowing Policy to enable persons employed by the Group to report any suspicion of non-compliance with regulations, policies and fraud, etc, to the appropriate authority for resolution, without any prejudicial implications for these employees. The Whistle Blowing Policy also serves to ensure that any issues or complaints raised will be dealt with swiftly and effectively. The AC has been vested with the power and authority to receive, investigate and enforce appropriate action whenever any such non-compliance matter is brought to the AC's attention.

As of to-date, there were no reports received through the whistle blowing mechanism.

The AC has reviewed all IPTs during FY2015 and is of the opinion that Chapter 9 of the Listing Manual of SGX-ST has been complied with.

In the event that a member of the AC is interested in any matter being considered by the AC, he will abstain from participating in the proceedings in relation to that particular transaction and will not vote on that particular resolution.

To keep abreast of the changes in accounting standards and issues which have a direct impact on financial statements, advice is sought from the external auditors when they attend the AC meetings quarterly.

INTERNAL AUDIT

Principle 13: *The company should establish an internal audit function that is adequately resourced and independent of the activities it audits.*

The Group outsources its internal audit function to KPMG Services Pte. Ltd. ("Internal Auditors"). The AC reviews the scope of work and deliverables by the Internal Auditors who in turn ensures adequate staffing to fulfil the scope of internal audit work agreed upon. The AC is further satisfied that the Internal Auditors has unfettered access to all the Company's documents, records, properties and personnel, including the access to the AC. The Internal Auditors will report directly to the AC on audit findings and the Management of the Group on administrative matters.

The objective of the internal audit function is to determine whether the Group's risk management, control and governance processes, as designed by the Group, are adequate and observed in the manner acceptable by the Group.

The AC reviews the adequacy of the internal audit function annually and ensures that the internal audit function is adequately resourced by examining the scope of internal audit work and its independence, the qualification and experiences of internal audit team assigned and has appropriate standing within the Company.

SHAREHOLDER RIGHTS AND RESPONSIBILITIES - SHAREHOLDER RIGHTS, COMMUNICATION WITH SHAREHOLDERS AND CONDUCT OF SHAREHOLDER MEETINGS

Principle 14: *Companies should treat all shareholders fairly and equitably, and should recognise, protect and facilitate the exercise of shareholders' rights, and continually review and update such governance arrangements.*

Principle 15: *Companies should actively engage their shareholders and put in place an investor relation policy to promote regular, effective and fair communication with shareholders.*

Principle 16: *Companies should encourage greater shareholder participation at general meetings of shareholders, and allow shareholders the opportunity to communicate their views on various matters affecting the company.*

In line with the continuous disclosure obligations of the Company pursuant to the Listing Manual of SGX-ST, the Company is committed that all shareholders should be equally informed of all major developments of the Group which would be likely to materially affect the price or value of the Company's shares.

The Company does not practice selective disclosure as all material and price-sensitive information is released through SGXNET.

STATEMENT ON CORPORATE GOVERNANCE

The information is disseminated to shareholders of the Company on a timely basis through:

- announcements and/or press release released through SGXNET;
- annual reports and circulars prepared and issued to all shareholders of the Company; and
- the official website of the Company (<http://www.okh.com.sg>).

To keep shareholders and investors of the Company updated on the latest announcements, press release and stock details of the Company, the shareholders and potential investors have 24-hour access to the Company's website. In addition, the shareholders and potential investors may subscribe for automated email alerts services from the Company's website to receive email alerts on the latest announcements and press releases disclosed over SGXNET. Enquiries may also be posed to the Company's investor relations by email.

All shareholders of the Company are given the opportunity to participate, voice their views or opinions and ask Directors or the Management questions regarding the Company and the Group in every AGM and Special General Meeting of the Company. The Board of Directors of the Company, including the Chairpersons of AC, RC and NC will be present at general meetings to address any questions or concerns of shareholders at general meetings. The external auditors will also be present at the AGM to address shareholders' queries about the conduct of audit and the preparation and content of the auditors' report.

The Company prepares minutes of general meetings that include substantial and relevant comments or queries from shareholders relating to the agenda of the meeting, and responses from the Board and Management. These minutes are available to shareholders upon their request.

There are separate resolutions at the general meetings to address each distinct issue. Each item of special business included in the notice of the general meetings will be accompanied by full explanation of the effects of a proposed resolution. The Company's Bye-Laws allow a shareholder or a depositor to appoint not more than two (2) proxies to attend and vote in his/her stead. Where the member is a Central Depository (Pte) Ltd (or its nominee as notified in writing to the Company), it can appoint more than 2 proxies. Proxies need not be a shareholder of the Company.

The Board will put all resolutions in the forthcoming Annual General Meeting and Special General Meeting to vote by poll and make an announcement of the detailed results showing the numbers of votes cast for and against each resolution and the respective percentages.

The Company does not have a policy on payment of dividends. The issue of payment of dividend is deliberated by the Board annually having regard to various factors.

MATERIAL CONTRACTS

Save as disclosed under Material Contracts in the Company's Circular dated 31 December 2012 and announcements released over SGXNET, there were no material contracts including loans subsisting at the end of FY2015, involving the interests of any Director, the CEO or the controlling shareholders of the Group.

INTERESTED PERSON TRANSACTIONS

Save as disclosed under Interested Persons Transactions in the Company's Circular dated 31 December 2012 and announcement on the unaudited full year financial results dated 28 August 2015, there were no interested person transactions equal to or exceeding S\$100,000 in aggregate between the Company or its subsidiaries with any of its interested persons (as defined in Chapter 9 of the Listing Manual of the SGX-ST) during FY2015.

STATEMENT ON CORPORATE GOVERNANCE

DEALING IN SECURITIES

The Company has complied with Rule 1207(19) of the Listing Manual of the SGX-ST in relation to the best practices on dealings in the securities:-

- (a) The Company had devised and adopted its own internal compliance code to provide guidance to its officers with regards to dealings by the Company and its officers in its securities;
- (b) Officers of the Company did not deal in the Company's securities on short-term considerations; and
- (c) The Company and its officers did not deal in the Company's shares (i) during the periods commencing one month before the announcement of the Company's financial results for each of the first three quarters of its financial year and the announcement of the Company's full year financial statements, ending on the date of the announcement of the relevant results; and (ii) if they are in possession of unpublished price-sensitive information of the Group.

In addition, the Directors and Management are expected to observe the insider trading laws at all times even when dealing in securities within permitted trading period.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF OKH GLOBAL LTD.

Report on the Financial Statements

We have audited the accompanying financial statements of OKH Global Ltd. (the "Company") and its subsidiaries (collectively, the "Group") which comprise the consolidated statement of financial position of the Group and the statement of financial position of the Company as at June 30, 2015, and the consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows of the Group and statement of changes in equity of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 34 to 94.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements that give a true and fair view in accordance with the International Financial Reporting Standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are properly drawn up in accordance with International Financial Reporting Standards so as to give a true and fair view of the financial position of the Group and of the Company as at June 30, 2015 and the financial performance, changes in equity and cash flows of the Group and changes in equity of the Company for the year ended on that date.

Notes:

- (i) The Bermuda Companies Act provides that where a company issues shares at a premium whether for cash or otherwise, a sum equal to the aggregate amount or value of the premium on those shares shall be transferred to an account, to be called "the share premium account" and the provisions of The Bermuda Companies Act relating to a reduction of share capital shall, except as provided in Section 40 of The Bermuda Companies Act, apply as if the share premium account were paid up share capital for the Company. The share premium account may be applied by the Company in paying for issue of bonus shares, paying for expenses on issue of shares or debentures of the Company and paying premium on redemption of shares and debentures of the Company.
- (ii) Equity reserve represents equity components recognised for redeemable exchangeable preference shares and redeemable convertible preference shares.
- (iii) Translation reserve represents exchange differences relating to the translation from the functional currencies of the Group's foreign associate into S\$, and in 2013, the Company changed its functional currency and presentation currency from RMB to S\$. Accordingly, the exchange differences resulting from translation of assets, liabilities and equity at applicable rate are recognised under the translation reserve.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

1 GENERAL

The Company is incorporated in Bermuda with its principal place of business and registered office at 701 Sims Drive, #02-06, LHK Building, Singapore 387383 and Canon's Court, 22 Victoria Street, Hamilton HM 12 Bermuda respectively. The Company is listed on the Singapore Exchange Securities Trading Limited. The financial statements are expressed in Singapore Dollars ("S\$").

The principal activity of the Company is that of an investing holding company. The principal activities of the subsidiaries, joint venture and associate are disclosed in Notes 13, 14 and 15 to the financial statements.

The consolidated financial statements of the Group for the financial year ended June 30, 2015 and the statement of financial position and statement of changes in equity of the Company for the financial year ended June 30, 2015 were authorised for issue by the Board of Directors on October 2, 2015.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING – The financial statements are prepared in accordance with the historical cost basis, except for certain properties and financial instruments that are measured at revalued amounts or fair values at the end of each reporting period as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the International Financial Reporting Standards ("IFRS").

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of IFRS 2, leasing transactions that are within the scope of IAS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in IAS 2 or value in use in IAS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

ADOPTION OF NEW AND REVISED STANDARDS – The financial statements of the Group in prior years were prepared and drawn up in accordance with Singapore Financial Reporting Standards ("SFRS"). The Group has applied IFRS 1 *First-time Adoption of Financial Reporting Standards* for the transition from SFRS to IFRS, using July 1, 2013 as the transition date. The statements of financial position as at the earliest comparative period, i.e. July 1, 2013 has not been presented as management has determined that there were no changes to the Group's and the Company's accounting policies and accordingly, there was no impact to amounts reported for the current and prior years.

In the current financial year, the Group has adopted all the new and revised International Accounting Standards ("IAS"), IFRSs and amendments to IFRS issued by the International Accounting Standards Board and the Interpretations thereof issued by the International Financial Reporting Standards Interpretations Committee ("IFRS IC") that are relevant to its operations and effective for annual periods beginning on or after July 1, 2014. The adoption of these new/ revised IAS, IFRS and amendments to IFRS does not result in changes to the Group and the Company's accounting policies and has no material effect on the amounts reported for the current or prior years.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

At the date of authorisation of these financial statements, the following new and revised standards and interpretations that are relevant to the Group and Company were issued but are not yet effective:

IFRS 9	Financial Instruments ²
IFRS 15	Revenue from Contracts with Customers ²
Amendments to IAS 1	Disclosure Initiative ³
Amendments to IFRS 11	Accounting for Acquisitions of Interests in Joint Operations ¹
Amendments to IAS 16 and IAS 38	Clarification of Acceptable Methods of Depreciation and Amortisation ¹

¹ Effective for annual periods beginning on or after January 1, 2016, with earlier application permitted.

² Effective for annual periods beginning on or after January 1, 2018, with earlier application permitted.

The directors of the Company anticipate that the application of the above new and revised standards and interpretations in future will not have material impact on the financial statements of the Group and the Company in the period of their initial adoption except for the following:

IFRS 9 *Financial Instruments*

IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets.

IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a "fair value through other comprehensive income" ("FVTOCI") measurement category for certain simple debt instruments.

Key requirements of IFRS 9 are described as below:

- all recognised financial assets that are within the scope of IAS 39 *Financial Instruments: Recognition and Measurement* are required to be subsequently measured at amortised cost of fair value. Specifically, debt investment that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at FVTOCI. All other debt investments and equity investments are measured at their fair value at the end of subsequent accounting periods. In addition, under IFRS 9, entities may make an irrevocable election to present subsequent changes in fair value of an equity investment (that is not held for trading) in other comprehensive income, with only dividend income generally recognised in profit or loss.
- with regard to the measurement of financial liabilities designated as at fair value through profit or loss, IFRS 9 requires that the amount of change in fair value of the financial liability that is attributable to changes in credit risk of that liability is presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss. Changes in fair value attributable to a financial liability's credit risk are not subsequently reclassified to profit or loss. Under IAS 39, the entire amount of the change in the fair value of the financial liability designated as fair value through profit or loss is presented in profit or loss.
- in relation to the impairment of financial assets, IFRS 9 requires an expected credit loss model, as opposed to an incurred credit loss model under IAS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

NOTES TO FINANCIAL STATEMENTS

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- the new general hedge accounting requirements retain the three types of hedge accounting mechanisms currently available in IAS 39. Under IFRS 9, greater flexibility has been introduced to the types of transactions eligible for hedge accounting, specifically broadening the types of instruments that qualify for hedging instruments and the types of risk components of non-financial items that are eligible for hedge accounting. In addition, the effectiveness test has been overhauled and replaced with the principle of an “economic relationship”. Retrospective assessment of hedge effectiveness is also no longer required. Enhanced disclosure requirements about an entity’s risk management activities have also been introduced.

The directors of the Company anticipate that the application of IFRS 9 in the future may have a material impact on amounts reported in respect of the Group’s financial assets and financial liabilities. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 9 until the Group undertakes a detailed review.

IFRS 15 *Revenue from Contracts with Customers*

In May 2014, IFRS 15 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and the related interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

Under IFRS 15, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

The directors of the Company anticipate that the application of IFRS 15 in the future may have a material impact on the amounts reported and disclosures made in the Group’s consolidated financial statements. However, it is not practicable to provide a reasonable estimate of the effect of IFRS 15 until the Group performs a detailed review.

The principal accounting policies are set out below.

BASIS OF CONSOLIDATION - The consolidated financial statements incorporate the financial statements of the Company and entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

In the Company's financial information, investments in subsidiaries are carried at cost less any impairment in net recoverable value that has been recognised in profit or loss.

BUSINESS COMBINATIONS – Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the acquisition date fair values of assets given, liabilities incurred by the Group to the former owners of the acquiree, and equity interests issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under the IFRS are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with IAS 12 *Income Taxes* and IAS 19 *Employee Benefits* respectively;
- liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment awards transactions with share-based payment awards transactions of the acquirer in accordance with the method in IFRS 2 *Share-based Payment* at the acquisition date; and
- assets (or disposal groups) that are classified as held for sale in accordance with IFRS 5 *Non-current Assets Held For Sale and Discontinued Operations* are measured in accordance with that standard.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis. Other types of non-controlling interests are measured at fair value or, when applicable, on the basis specified in another IFRS.

GOODWILL – Goodwill arising in a business combination is recognised as an asset at the date that control is acquired (the acquisition date). Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the acquiree over net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed.

If, after reassessment, the Group's interest in the fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Goodwill is not amortised but is reviewed for impairment at least annually. For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units expected to benefit from the synergies of the combination. Cash-generating units to which goodwill has been allocated are tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro-rata on the basis of the carrying amount of each asset in the unit. An impairment loss recognised for goodwill is not reversed in a subsequent period.

On disposal of a subsidiary or the relevant cash generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

FINANCIAL INSTRUMENTS – Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period. Income or expense is recognised on an effective interest basis for debt instruments.

Financial assets

Financial assets are classified into the following specified categories: available-for-sale ("AFS") financial assets and loans and receivables. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

Available-for-sale ("AFS") financial assets

AFS financial assets are non-derivatives that are either designated as AFS or are not classified as (a) loans and receivables, (b) held-to-maturity investments or (c) financial assets at fair value through profit or loss.

The Group has investment in unlisted shares that are not traded in active market and whose fair value cannot be reliably measured. Such unquoted equity investment is measured at cost less any identified impairment losses at the end of each reporting period.

Dividends on AFS financial assets are recognised in profit or loss when the Group's right to receive payments is established.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables (including cash and cash equivalents, trade and other receivables (exclude prepayments) and loan due from non-controlling interests) are initially measured at fair value and are subsequently measured at amortised cost using the effective interest method, less any impairment.

Interest income is recognised by applying the effective interest method, except for short-term receivables when the effect of discounting is immaterial.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial assets, the estimated future cash flows of the asset have been impacted.

For all financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For certain categories of financial asset, such as trade receivables, assets that are assessed not to be impaired individually are, in addition, assessed for impairment on a collective basis. Objective evidence of impairment for a portfolio of receivables could include the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period, as well as observable change in national or local economic conditions that correlate with default on receivables.

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

For financial assets that are carried at cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment loss will not be reversed in subsequent periods.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables where the carrying amount is reduced through the use of an allowance account. When a trade or other receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent the carrying amount of the asset at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Financial liabilities and equity instruments

Classification as debt or equity

Debts and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Group after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables are initially measured at fair value, net of transaction costs, and are subsequently measured at amortised cost, using the effective interest method, except for short-term payables where the recognition of interest would be immaterial.

Interest-bearing bank loans and overdrafts are initially measured at fair values, and are subsequently measured at amortised cost, using the effective interest method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the Group's accounting policy for borrowing costs (see below).

Financial guarantee contract liabilities are measured initially at their fair value and, if not designated as at fair value through profit or loss, subsequently at the higher of the amount of obligation under the contract recognised as a provision in accordance with IAS 37 *Provisions, Contingent Liabilities and Contingent Assets* and the amount initially recognised less cumulative amortisation in accordance with IAS 18 *Revenue*.

Compound instruments

The Group enters into redeemable exchangeable preference shares and redeemable convertible preference shares which are regarded as compound instruments, consisting of a liability component and an equity component. The component parts of compound instruments are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangement and the definitions of a financial liability and an equity instrument. Conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for a similar non-redeemable instrument. This amount is recorded as a liability on an amortised cost basis until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to share premium. When the conversion option remains unexercised at the maturity date of the compound instruments, the balance recognised in equity will be transferred to accumulated profits. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the compound instruments are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the compound instruments using the effective interest method.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Derecognition of financial liabilities

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

CONSTRUCTION CONTRACTS – Where the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period.

The stage of completion, depending on the type of projects, is measured by:

- a) the proportion of certified contract value of work performed to date relative to the estimated total contract value; or
- b) contract costs incurred to date to the estimated total costs for the contract.

Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

Where the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that are probably recoverable. Contract costs are recognised as expense in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

Costs of construction contracts include costs that relate directly to the specific contract and costs that are attributable to contract activity and can be allocated to the contract. Such costs include but are not limited to material, labour, depreciation and hire of equipment, interest expense, subcontract cost and estimated costs of rectification and guarantee work, including expected warranty costs.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the consolidated statement of financial position, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the consolidated statement of financial position under trade and other receivables.

PROPERTIES UNDER DEVELOPMENT – Properties under development are stated at the lower of cost or net realisable value. Net realisable value takes into account the price ultimately expected to be realised and the anticipated costs to completion.

Cost of property under development comprises land cost, development costs and borrowing costs capitalised during the development period. When completed, the units held for sale are classified as completed properties held for sale.

Revenue and costs are recognised based on the completion of construction method when the transfer of significant risks and rewards of ownership coincides with the time when the property is completed and ready for hand over.

Properties under development are classified as current when they are expected to be realised in, or are intended for sale in, the Group's normal operating cycle.

LEASES – Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Group as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease income.

The Group as lessee

Assets held under finance leases are recognised as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation. Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs (see below). Contingent rentals are recognised as expenses in the period in which they are incurred.

Rentals payable under operating leases are charged to profit or loss on a straight-line basis over the relevant lease term unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

NON-CURRENT ASSETS (OR DISPOSAL GROUPS) HELD-FOR-SALE AND DISCONTINUED OPERATIONS - Non-current assets (or disposal groups) are classified as held-for-sale and carried at the lower of carrying amount and fair value less costs to sell if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only if the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

When the Group is committed to a sale plan involving loss of control of a subsidiary, all of the assets and liabilities of that subsidiary are classified as held for sale when the criteria described above are met, regardless of whether the Group will retain a non-controlling interest in its former subsidiary after the sale.

A discontinued operation is a component of an entity that either has been disposed of, or that is classified as held-for-sale and:

- a) represents a separate major line of business or geographical area of operations; or
- b) is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations; or
- c) is a subsidiary acquired exclusively with a view to resale.

PROPERTY, PLANT AND EQUIPMENT - Property, plant and equipment are stated at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Depreciation is charged so as to write off the cost of assets, other than properties under construction, over their estimated useful lives, using the straight-line method, on the following bases:

Freehold properties	-	100 years
Leasehold land and building	-	Over the lease term
Computer equipment	-	3 to 5 years
Machinery	-	5 years
Motor vehicles	-	4 to 5 years
Office furniture and fittings	-	3 to 5 years
Renovation	-	3 to 5 years

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimates accounted for on a prospective basis.

Properties in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the group's accounting policy. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, if there is no certainty that the lessee will obtain ownership by the end of the lease term, the asset shall be fully depreciated over the shorter of the lease term and its useful life.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Fully depreciated assets are retained in the book of accounts until they are no longer in use.

INVESTMENT PROPERTIES - Investment properties are properties held to earn rentals and/or for capital appreciation, (including properties under construction for such purposes). Investment properties are measured initially at its cost, including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. All of the Group's property interests held under operating leases to earn rentals or for capital appreciation purposes are accounted for as investment properties and are measured using the fair value model. Gains and losses arising from changes in the fair value of investment properties are included in profit or loss in the period in which they arise.

INVESTMENT IN ASSOCIATE AND JOINT VENTURE - An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment, or a portion thereof, is classified as held for sale, in which case it is accounted for in accordance with IFRS 5. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with IAS 36 to the extent that the recoverable amount of the investment subsequently increases.

When a group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognised in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

IMPAIRMENT OF TANGIBLE ASSETS – At the end of each reporting period, the Group reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

PROVISIONS – Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

REVENUE RECOGNITION – Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for discount and sales related taxes.

- (i) Revenue from construction contracts is recognised in accordance with the Group's accounting policy on construction contracts (see above).
- (ii) Revenue from property development for sales is recognised when the respective properties have been completed and the risks and rewards of ownership have been transferred to the purchaser either through the transfer of legal title or equitable interest in a property.
- (iii) Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.
- (iv) Rental income from investment properties is recognised on a straight-line basis over the term of the relevant lease.
- (v) Revenue from sale of goods pertains to the provision of system integration for computer information system and is recognised when the Group's entity has completed the commissioning of the system integration to the customer, the customer has accepted the goods and the collectibility of the related receivables is reasonably assured.
- (vi) Revenue from rendering of services pertains to a) provision of system integration for intelligent building and software development is recognised in accordance with the Group's accounting policy on construction contracts (see above); and b) provision of technical services is recognised in straight-line basis over the contract period.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BORROWING COSTS – Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

RETIREMENT BENEFIT COSTS – Payments to defined contribution retirement benefit plans are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the Group's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

EMPLOYEE LEAVE ENTITLEMENT – Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

INCOME TAX – Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax – The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before income tax as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The Group's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted in countries where the Company and subsidiaries operate by the end of the reporting period.

Deferred tax – Deferred tax is recognised on the temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognised on taxable temporary differences associated with investments in subsidiaries, associate and joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Except for investment properties measured using the fair value model, the measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax liabilities and deferred tax assets for investment properties that are measured using the fair value model the carrying amounts of such properties are presumed to be recovered through sale, unless the presumption is rebutted. The presumption is rebutted when the investment property is depreciable and is held within a business model of the group whose business objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale. The directors of the Company reviewed the Group's investment property portfolios and concluded that none of the Group's investment properties are held under a business model whose objective is to consume substantially all of the economic benefits embodied in the investment properties over time, rather than through sale. Therefore, the directors have determined that the 'sale' presumption set out in the amendments to IAS 12 is not rebutted. The Group has not recognised any deferred taxes on changes in fair value of the investment properties as the Group is not subject to any income taxes on the fair value changes of the investment properties on disposal.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the year - Current and deferred tax are recognised as an expense or income in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION - The individual financial statements of each entity within the Group are measured and presented in the currency of the primary economic environment in which the respective entities operate (its functional currency). The consolidated financial statements of the Group and the statement of financial position and statement of changes in equity of the Company are presented in Singapore dollars, which is the functional currency of the Company and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period in which they arise.

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are translated into Singapore dollars using exchange rates prevailing at the end of the reporting period. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the header of translation reserve.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign operation), all of the accumulated exchange differences in respect of that operation attributable to the Group are reclassified to profit or loss. Any exchange differences that have previously been attributed to non-controlling interests are derecognised, but they are not reclassified to profit or loss.

Goodwill and fair value adjustments assumed through acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the rate of exchange prevailing at the end of each reporting period. Exchange difference arising are recognised in other comprehensive income.

CASH AND CASH EQUIVALENTS IN THE STATEMENT OF CASH FLOWS – Cash and cash equivalents in the consolidated statement of cash flows comprise cash on hand and demand deposits, bank overdrafts, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 2, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Group's accounting policies

The following is the critical judgement, apart from those involving estimations (see below), that management has made in the process of applying the Group's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

Revenue recognition – property under development

The Group recognises revenue and cost of property under development based on the completion of construction method when the transfer of significant risks and rewards of ownership coincides with the time when the property is completed and ready for hand over.

With respect to the commercial property developments of the Group, the management determines that significant risks and rewards of ownership were transferred upon receipt of temporary occupation permit, indicating that the development is completed with key regulatory requirements met and fit for occupation and handover.

Accounting for redeemable convertible preference shares ("RCPS")

Chronoz Investment Holding Pte. Ltd., a subsidiary of the Company, issued S\$8 million RCPS in November 2014 and the holder of the RCPS shall have the option to exchange part of or its entire holdings of the RCPS into the Company's shares at a fixed price. In addition, in the event Chronoz undertakes an initial public offering ("IPO") before the maturity date, the holder of the RCPS shall have the option to convert all the RCPS into ordinary shares of Chronoz at a price equals to 50% discount to the IPO price. The management of the Company considered that the rights to the conversion option are in their hands as initiating an IPO exercise via Chronoz is within management control and management does not intend, and is not required to, put forth such exercise within the outstanding period of the RCPS. Accordingly, the management of the Company considered that the aforesaid conversion option is not substantive and recognised the RCPS as a compound instrument with both the liability and equity elements in accordance with IAS 32 *Financial Instruments: Presentation* ("IAS 32"). The carrying amounts of the liability and equity components of the RCPS are disclosed in Note 21.

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Critical judgements in applying the Group's accounting policies (Continued)

Accounting for deferred loss on redeemable exchangeable preference shares ("REPS")

OKH Transhub Pte. Ltd., a subsidiary of the Company, issued S\$10 million REPS and measured the compound instrument in accordance with IAS 39 Financial Instruments: Recognition and Measurement. Due to the prolonged process in fulfilling the conditions precedent to the subscription agreement and the surge in the share price of the Company during the intervening period, management has assessed that the aggregate fair value of the liability and equity components of the REPS is in excess of its nominal value at initial recognition and concluded that such differences should be deferred and amortised over the period up to the maturity date. The fair value of the liability and equity component of the REPS is based on a valuation performed by an independent professional valuer. The carrying amounts of the deferred loss and REPS are disclosed in Notes 7 and 23 respectively.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below.

Construction contracts

The Group recognises contract revenue and contract costs using the percentage of completion method. The percentage of completion is measured by reference to the stage of completion of the contract activity at the end of the reporting period. The stage of completion, depending on the type of projects, is measured by:

- a) the proportion of certified contract value of work performed to date relative to the estimated total contract value of the construction contractor segment; or
- b) contract costs incurred to date to the estimated total costs for the contract of the IT business segment.

Significant assumptions are required in estimating the total contract costs which affect the contract cost recognised to-date based on the percentage of completion. Total contract revenue also includes estimation for variation works that are recoverable from customers. In making these estimates, the Group relies on past experience and the work of specialists.

In addition, the valuation of construction contracts can be subject to uncertainty in respect of variation works and estimation of future costs. The carrying amounts of assets and liabilities arising from construction contracts are disclosed in Notes 7 and 18, respectively.

Carrying amounts of properties under development

The aggregate carrying amount of properties under development is approximately S\$235.8 million as at June 30, 2015 (2014: S\$287.1 million), and details of which are disclosed in Note 9. They are stated at cost less allowance for impairment in value or at the lower of cost and estimated net realisable values, assessed on an individual project basis.

When it is probable that the total project costs will exceed the total projected revenue net of selling expenses, i.e. net realisable value, the amount in excess of net realisable value is recognised as an expense immediately.

The process of evaluating the net realisable value for each property is subject to management's judgement and the effect of assumptions in respect of development plans, timing of sale, selling prices for comparable development and the prevailing market conditions. Management performs cost studies for each project, taking into account the costs incurred to date, the development status and costs to complete each development project. Any future variation in plans, assumptions and estimates can potentially impact the carrying amounts of the respective properties.

3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

Key sources of estimation uncertainty (Continued)

Fair value measurements and valuation processes

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. The finance team, which reports to the board of directors of the Company, determines the appropriate valuation techniques and inputs for fair value measurements.

In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party qualified valuers to perform the valuation on a yearly basis. The finance team works closely with the qualified external valuers to establish the appropriate valuation techniques and inputs to the model. The finance team reports the findings to the board of directors of the Company to explain the cause of fluctuations in the fair value of the assets and liabilities.

Information about the valuation techniques and inputs used in determining the fair value of various assets and liabilities are disclosed in Notes 12, 21 and 23.

Provision for warranty costs

Determining the provision for contract costs in respect of cost of work required to be carried out for the rectification of construction defects requires an assessment of the potential defects that could arise, the estimation of the timing of incurring such costs and of the future costs of carrying out such rectification works. Management of the Company is of view that the carrying amount of the provision for warranty costs is immaterial.

4 FINANCIAL INSTRUMENT, FINANCIAL RISK AND CAPITAL RISKS MANAGEMENT

4 FINANCIAL INSTRUMENT, FINANCIAL RISK AND CAPITAL RISKS MANAGEMENT (Continued)

(b) Financial risk management policies and objectives

The management of the Group monitors and manages the financial risks relating to the operations of the Group to ensure appropriate measures are implemented in a timely and effective manner. These risks include market risk (foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Group does not hold or issue derivative financial instruments for speculative purposes.

There has been no change to the Group's exposure to these financial risks or the manner in which it manages and measures the risk. Market risk exposures are measured using sensitivity analysis indicated below.

(i) *Foreign exchange risk management*

The Group is exposed to minimal foreign exchange rate risk as the financial assets and liabilities are mainly denominated in respective functional currency of the Group entity. Any movement in foreign exchange rate is unlikely to have a significant impact in the results of the Group. Accordingly, no sensitivity analysis is prepared.

(ii) *Interest rate risk management*

The Group's exposure to interest rate risk relates primarily to fixed deposits and debt obligations. The interest rates for fixed deposits, obligations under finance leases, bank loans and overdrafts, RCPS and REPS are indicated in Notes 6, 19, 20, 21 and 23, respectively. The Group manages interest cost by using a mixture of fixed and variable rate debts.

The borrowing costs related to property development projects and construction of investment properties are capitalised as cost of property development (Note 9) and investment properties (Note 12). All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Interest rate sensitivity analysis

The sensitivity analyses below have been determined based on the exposure to interest rates for non-derivative instruments at the end of the reporting period and on the assumption that the change took place at the beginning of the reporting period and is held constant throughout the reporting period. The magnitude represents management's assessment of the likely movement in interest rates under normal economic conditions.

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the amount of interest capitalised as part of the Group's development properties and investment properties as at June 30, 2015 would have increased/decreased by S\$672,000 (2014: S\$922,000) and S\$146,000 (2014: S\$134,000) respectively.

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Group's profit for year ended June 30, 2015 would have decreased/increased by S\$279,000 (2014: S\$418,000).

NOTES TO FINANCIAL STATEMENTS

4 FINANCIAL INSTRUMENT, FINANCIAL RISK AND CAPITAL RISKS MANAGEMENT (Continued)

(b) Financial risk management policies and objectives (Continued)

(iii) *Credit risk management*

At the end of the reporting period, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties represents the carrying amount of the respective recognised financial assets as stated in the consolidated statements of financial position.

The Group's exposure to credit risk on receivables arising from the sale of industrial property units is not significant as such payments are usually arranged through loans taken up by customers with reputable financial institutions.

The Group carries out construction work for both public and private sectors. Credit risks are taken into consideration in the decision to participate in tenders for construction contracts.

In addition, rental deposits are received as security from tenants of its investment properties.

The Group monitors its potential losses on credit extended. An allowance for impairment on the receivables is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows. Trade receivables amounts presented in the statement of financial position are net of allowances for doubtful receivables.

The carrying amount of financial assets recorded in the financial statements, grossed up for any allowances for losses, represents the Group's maximum exposure to credit risk without taking account of the value of any collateral obtained.

Further details of credit risks on trade and other receivables are disclosed in Note 7.

The Group also has concentration of credit risk by geographical location as all of the customers are located in Singapore.

The credit risk on bank balances and fixed deposits are limited because the counterparties are banks with good reputation and good credit rating.

(iv) *Liquidity risk management*

The Group maintains sufficient cash and cash equivalents, and internally generated cash flows to finance its activities. The Group finances its liquidity through internally generated cash flows, bank loans, RCPS and REPS, and minimises liquidity risk by keeping committed credit lines available.

As at June 30, 2015, the Group has S\$3,600,000 (2014: S\$5,009,000) of available and undrawn committed bank credit facilities. All covenants of the facilities have been met.

Non-derivative financial liabilities

The following tables detail the remaining contractual maturity for non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay which includes both interest and principal cash flows. The adjustment column represents the difference between the discounted cash flows and the carrying amount of the financial liability on the statements of financial position. The undiscounted cash flow for variable interest rate instruments are subject to change if changes in variable interest rates differs to those estimates of interest rates determined at the end of the reporting period.

As at June 30, 2015, bank borrowings with a repayment on demand clause is included in the "on demand or within 1 year" time band in the above maturity analysis. There is no bank borrowing with repayment on demand clause as at June 30, 2014.

All non-derivative financial liabilities of the Company in 2015 and 2014 are repayable on demand or current and the undiscounted cash flow approximates its carrying amount.

Non-derivative financial assets

All financial assets of the Group and the Company in 2015 and 2014 are non-interest bearing and repayable on demand or current except for loan due from non-controlling interests and fixed deposit as disclosed on Note 5 and 6, respectively.

10 NON-CURRENT ASSETS (OR DISPOSAL GROUPS) HELD-FOR-SALE AND DISCONTINUED OPERATIONS

Company

On June 24, 2014, the Company divested its investments in Guangzhou Sinobest Information Technology Ltd. and Sinobest Technologies (H.K.) Limited (collectively, the "Sinobest Operating Subsidiaries") by way of distribution in specie to its shareholders in the form of capital reduction (Note 24). The net gain of divestment amounting to S\$12,417,000, adjusted for S\$2,268,000 of intercompany payables waived upon divestment, was recognised directly in equity as it is a transaction with shareholders.

Group

In 2014, the Group accounted for such divestment as distribution in specie to the shareholders, which was made on the basis of one share in the holding company of the disposal group for every one share held by entitled shareholders in the capital of the Company. The distribution in specie is valued based on net assets of the disposal group on the effective date of divestment amounting to S\$30,248,000 (Note 10 (b)).

(a) The results of the discontinued operations and the re-measurement of the disposal group are as follows:

	Group 2014 S\$'000

All of the Group's property interests held under operating leases to earn rentals are classified and accounted for as investment properties and are measured using the fair value model.

As at June 30, 2015, the fair value of the Group's completed investment properties of S\$40,000,000 and investment properties under construction of S\$58,307,000 have been arrived at on the basis of a valuation carried out by United Valuers Pte Ltd, independent qualified professional valuers not connected with the Group, which has appropriate qualifications and recent experiences in the valuation of similar properties in the relevant locations.

As at June 30, 2014, except for the fair value of certain completed investment properties carried out by management, the fair value of the Group's completed investment properties of S\$31,619,000 and investment properties under construction of S\$30,417,000 have been arrived at on the basis of a valuation carried out by Savills Valuation and Professional Services (S) Pte Ltd and United Valuers Pte Ltd respectively, independent qualified professional valuers not connected with the Group, which have appropriate qualifications and recent experiences in the valuation of similar properties in the relevant locations.

The valuations of completed investment properties are determined by:

- market comparable approach that reflects recent sales transaction prices for similar properties;
- income capitalisation approach, which is arrived at by reference to net rental income allowing for reversionary income potential and market evidence of transaction prices for similar properties in the same locations and conditions, where appropriate. The capitalization rate adopted is made by reference to the yield rates observed by the valuers for similar properties in the locality and adjusted based on the valuers' knowledge of the factors specific to the respective properties; and
- discounted cash flow approach, which is arrived at by estimating the future rental cash flow generated from the property discounted at 5% that reflects the current market reference rate by management.

NOTES TO FINANCIAL STATEMENTS

June 30, 2015

12 INVESTMENT PROPERTIES (Continued)

The valuations of investment properties under construction are arrived at by residual method, which is based on market observable transactions of similar properties and taken into account the construction costs that will be expended to complete the development.

There has been no change from the valuation technique used in prior years. In estimating the fair value of the properties, highest and best use of the properties is their current use.

(2) Pursuant to the shareholders' transfer agreement signed between OKH Holdings Pte. Ltd. ("OKHH") and a third party, ZACD (Woodlands) Pte. Ltd. ("ZACD") on April 5, 2013 (as superseded and varied by a further shareholders' agreement dated October 11, 2013), ZACD agreed to acquire a 15% equity interest in OKH Development Pte. Ltd. ("OKHD") at a total consideration of S\$300,000. Based on the terms of the agreement, ZACD would only limit its participation in OKHD only to the business relating to the development and sale of the units in a certain development project of OKHD (the "Business"). The agreement between OKHH and ZACD entitled each party to 70% and 30% of the assets and liabilities of the Business respectively.

("PAL Singapore") and PALIH dated October 29, 2013, PAL Singapore is required to transfer PAL Korea to PALI no later than September 12, 2015. Based on the terms of agreement, PALI has effective control over the financial and operating policies of the property business of PAL Korea despite the legal ownership of the entity has yet to be transferred to PALI as at June 30, 2014 and 2015. Hence, the Group, with significant influence in PALIH, regards this entity as an associate. On September 12, 2015, PAL Singapore proposed a revised structure to facilitate the transfer of the property business of PAL Korea to PALI. This proposed structure will continue to retain the 40% economic interest of the property business of PAL Korea entitled by PALI.

16 AVAILABLE-FOR-SALE INVESTMENT

	Group	
	2015 S\$'000	2014 S\$'000
Unquoted equity shares, at cost	<u>21,500</u>	<u>-</u>

The investment in unquoted equity investment represents a 12% equity interest of Pan Asia Logistics Holdings Singapore Pte. Ltd. ("PAL Holdings") at an aggregate subscription price of S\$17.2 million under a Subscription and Shareholder's Agreement ("SSA") and a 3% equity interest of PAL Holdings at an aggregate purchase consideration of S\$4.3 million under a Sale and Purchase Agreement ("SPA"). Under the SPA, the Group is granted a put option which may be exercised once and in full, anytime during the period of 36 months commencing from July 1, 2015, to require the vendor to acquire the 3% equity interest from the Group. The put option price shall be 1.12 times to 1.36 times depending on the date of exercise.

The unquoted equity investment is engaged in the provision of logistics and supply chain services. The above acquisitions through SSA and SPA were completed in September 2014 and are accounted for as available-for-sale investment and carried at cost at the end of the reporting period because the range of reasonable fair value estimates is so significant that the directors of the Company are of the opinion that their fair values cannot be measured reliably. In addition, directors of the Company considered the fair value of the put option is insignificant at initial recognition and at the end of the reporting period.

17 DEFERRED TAX ASSETS

The following are the major deferred tax assets recognised by the Group and the movements thereon during the current and prior reporting periods:

	Accelerated tax depreciation S\$'000	Tax losses S\$'000	Provisions S\$'000	Net S\$'000
Group				
At July 1, 2013	(15)	578	1,431	1,994

At June 30, 2014 and 2015	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>

Deferred tax assets are recognised for unutilised tax benefits carried forward to the extent that realisation of the related tax benefits through future taxable profits is probable.

The Group has unused tax losses for which no deferred tax assets have been recognised are as follow:

	2015 S\$'000	2014 S\$'000
Tax losses at end of year	<u>3,739</u>	<u>12,061</u>
Deferred tax assets not recognised	<u>636</u>	<u>2,050</u>

The realisation of the future tax benefit from tax loss carry forwards is available for an unlimited future period subject to certain conditions imposed by law including the retention of majority shareholders as defined.

21 REDEEMABLE CONVERTIBLE PREFERENCE SHARES

On November 4, 2014, 80 RCPS were issued by a subsidiary of the Company, Chronoz Investment Holding Pte. Ltd. ("Chronoz"), at an issue price of S\$100,000 per share for cash with an option to exchange up to a total number of 11,174,433 ordinary shares of the Company (the "OKH Shares"). All issued RCPS are fully paid. RCPS was secured by the pledge of the interest in 1 ordinary share in the issued and paid-up share capital of Chronoz held by the Company.

The main terms and conditions of the RCPS are as follows:

- (a) The coupon rate of the RCPS is 11% per annum, payable semi-annually accruable from issued date.
- (b) The RCPS maturity date being 18 months after September 5, 2014.
- (c) In the event Chronoz undertakes an initial public offering ("IPO") exercise before the maturity date, the holders of the RCPS (the "Holders") shall have the right to convert all the RCPS into ordinary shares of Chronoz at 50% discount to the IPO price of Chronoz.
- (d) The Holder shall have the right to exchange part of or its entire holdings of the RCPS into OKH Shares based on the exchange price of S\$0.71592, at any time starting from the first anniversary of the issuance date and up to the maturity date. In the event that there is any sub-division, consolidation or reclassification of shares, reorganisations or any other activities that may alter their capital structure, then the exchange price shall be adjusted.
- (e) All outstanding RCPS shall be redeemed by Chronoz in cash within 14 business days from the maturity date (both dates inclusive).

Although the RCPS contain settlement provision to the holder to convert all of its RCPS into ordinary shares of Chronoz at a discount to the IPO price, the management of the Company considered that the above said conversion option are in their hands as initiating an IPO exercise via Chronoz is within management control and management does not intend, and is not required, to put forth such exercise within the outstanding period of the RCPS. Accordingly, the management of the Company considered that the aforesaid conversion option is not substantive and recognised the RCPS as a compound instrument with both the liability and equity elements in accordance with IAS 32.

The initial fair value of the liability component and the equity conversion component was determined based on the net proceeds at issuance. The initial fair value of the liability component and the equity conversion component was valued by the directors with reference to valuation report carried out by an independent qualified professional valuer, AVA Associates Ltd, on November 4, 2014. AVA Associates Ltd. has appropriate qualifications and recent experiences in the valuation of similar instruments. The residual amount, representing the value of the equity conversion component, was included in equity as "equity reserve" in the statement of changes in equity. The liability component was subsequently measured at amortised cost using the effective interest method. The effective interest rate of the liability component on initial recognition is 14.9% per annum.

Balance at June 30, 2015	1,368	-	1,368

The provision for liquidated damages represents the estimated costs of compensation required for not completing certain construction contracts in accordance with the stipulated schedule.

The provision for foreseeable losses represents the estimated additional costs required to complete certain construction contracts which are in excess of the contract revenue.

These above amounts have not been discounted as the effect is not expected to be material.

23 REDEEMABLE EXCHANGEABLE PREFERENCE SHARES

On November 18, 2013, 100 REPS were issued by a subsidiary of the Company, OKH Transhub Pte. Ltd. ("OKH Transhub") at an issue price of S\$100,000 per share with an option to exchange up to a total number of 22,222,222 ordinary shares of the Company (the "OKH Shares"). All issued REPS are fully paid. REPS was secured by the pledge of the interest in 5,000,000 ordinary shares in the issued and paid-up share capital of OKH Transhub held by the Company.

The main terms and conditions of the REPS are as follows:

- (a) Holders of the REPS (the "Holders") shall have the right to exchange 50% of their holdings of REPS into the OKH Shares at the exchange price of S\$0.45 at any time starting from the first anniversary from the issuance date and up to the maturity date.
- (b) The REPS maturity date falls on the third anniversary of the date on which the REPS are issued.
- (c) The Holders shall have the right to exchange the remaining 50% of their holdings of REPS into OKH Shares at any time starting from the second anniversary from the issuance date and up to the maturity date.
- (d) In the event that there is any sub-division, consolidation or reclassification of shares, reorganisations or any other activities that may alter their capital structure, then the exchange price shall be adjusted.
- (e) All outstanding REPS shall be redeemed by OKH Transhub within 5 business days after 36 months from the date of issuance of the REPS, at the rate of 1.5 times of the issue price in cash.

The REPS contained two components, liability and equity elements. The initial fair value of the liability component and the equity conversion component was valued by the directors with reference to valuation report carried out by an independent qualified professional valuer, AVA Associates Ltd, on November 18, 2013. AVA Associates Ltd. has appropriate qualifications and recent experiences in the valuation of similar instruments.

23 REDEEMABLE EXCHANGEABLE PREFERENCE SHARES (Continued)

The effective interest rate of the liability component on initial recognition is 15.9% per annum. The conversion component is measured at fair value and determined by Binomial Model with key inputs as follows:

	November 18, 2013
Share prices of the Company (S\$)	0.545
Exchange price (S\$)	0.450
Time to expiration	3 years
Risk-free Rate	0.397%
Expected dividend yield	0%
Expected volatility	35.922%

Expected volatility was determined by using the historical share price movement of comparable companies over a 3-year period. The risk-free rate used was by reference to yield of 3-year Singapore sovereign debt.

	Group S\$'000
Nominal value of REPS issued on November 18, 2013	10,000
Add: Fair value loss on REPS at date of issue (Note i)	3,199
Fair value of REPS at date of issue	<u>13,199</u>

Note i: As the transaction price differs from fair value at initial recognition, the difference is accounted for as deferred loss on REPS as the valuation technique involves significant unobservable inputs. The deferred loss is amortised over the maturity period of the REPS and presented under other receivables (Note 7).

The movement of the liability component and equity component is set out as below:

	Liability component S\$'000	Equity component (Note ii) S\$'000

32 EARNINGS PER SHARE

The calculation of the basic and diluted earnings per share attributable to owners of the Company is based on the following data:

	Group	
	2015 S\$'000	2014 S\$'000
Earnings from continuing and discontinued operations		
Earnings for the purposes of basic earnings per share (Profit for the year attributable to owners of the Company)	46,243	26,030
Effect of dilutive potential ordinary shares:		
Interest on RCPS, net of tax	764	-
Interest on REPS, net of tax	2,260	1,080
Earnings for the purposes of diluted earnings per share	<u>49,267</u>	<u>27,110</u>
Earnings from continuing operations		
Profit for the year attributable to owners of the Company	46,243	26,030
Less: Profit for the year from discontinued operation	-	(1,875)
Earnings for the purposes of basic earnings per share	<u>46,243</u>	<u>24,155</u>
Effect of dilutive potential ordinary shares:		
Interest on RCPS, net of tax	764	-
Interest on REPS, net of tax	2,260	1,080
Earnings for the purposes of diluted earnings per share	<u>49,267</u>	<u>25,235</u>
	2015	2014
	'000	'000
Number of shares		
Weighted average number of ordinary shares for the purposes of basic earnings per share	628,657	612,055
Effect of dilutive potential ordinary shares due to RCPS	7,317	-
Effect of dilutive potential ordinary shares due to REPS	<u>22,222</u>	<u>13,637</u>
Weighted average number of ordinary shares for the purposes of diluted earnings per share	<u>658,196</u>	<u>625,692</u>

The diluted earnings per share is the same as the basic earnings per share in 2015 and 2014 as the effects of the REPS and RCPS are anti-dilutive.

From discontinued operations

In 2014, basic earnings per share and diluted earnings per share for the discontinued operation is 0.31 Singapore cents per share and 0.30 Singapore cents per share respectively. Earnings per share from discontinued operation is based on the net profit for the year from discontinued operations of S\$1,875,000 and the above number of shares for both basic and diluted earnings per share.

34 SEGMENT INFORMATION

For the purpose of the resource allocation and assessment of segment performance, the Group's chief operating decision makers have focused on the business operating units which in turn, are segregated based on their services. This forms the basis of identifying the segments of the Group under IFRS 8 *Operating Segments*.

Operating segments are aggregated into a single operating segment if they have similar economic characteristics. The Group's reportable operating segments under IFRS 8 are as follows:

- (i) Construction contractor: General builders and construction contractors, general engineering and sale of construction materials.
- (ii) Property development: Development of industrial properties.
- (iii) Property investment: Leasing of investment properties to generate rental income and to gain from the appreciation in the value of the properties in the long term.
- (iv) IT business: Provision of system integration for computer information system and intelligent building, software development and technical services.

The IT business operation comes from the Sinobest operating subsidiaries which was discontinued (See Note 10). For IFRS 8 purposes, the IT business is included as one of the reportable segments.

The accounting policies of the reportable segments are the same as the Group's accounting policies described in Note 2. Segment profit represents the profit earned by each segment without allocation of central administrative costs, share of profit of a joint venture, finance costs, and income tax expense or credit. Share of profits of an associate are included in property investment segment in accordance with its business activities. This is the measure reported to Mr. Bon Ween Foong, the director and chief executive of the Company, being the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

For the purposes of monitoring segment performance and allocating resources between segments, the chief operating decision maker monitors the tangible and financial assets attributable to each segment. All assets are allocated to reportable segments other than assets held under the Company, interests in joint venture, deferred tax assets and available-for-sale investment. Assets used jointly by reportable segments are allocated on the basis of the revenues earned by individual reportable segments. Segment liabilities include all operating liabilities and consist primarily of financial liabilities other than liabilities held under the Company and income tax payable.

The Group's main operations are located in the Singapore, except for IT business located in People's Republic of China that is already separately identified and disclosed in the operating segment below, hence no analysis by geographical area of operation is provided.

Notes:

- (1) Reclassification has been made to reflect the share premium separately from the par value of the shares of the Company.
- (2) Reclassification has been made to enhance comparability with the current year's financial statements.
- (3) Reclassification has been made to reflect the net cash outflow from divestment of disposal group as financing activities as it is in substance a distribution in specie to shareholders.

As a result, certain line items have been amended in the statement of financial position, consolidated statement of profit or loss and other comprehensive income, consolidation statement of cash flows and the related notes to the financial statements. Comparative figures have been adjusted to conform to the current year's presentation.

2. To approve the payment of Directors’ fees of S\$171,000 for the financial year ending 30 June 2016, to be paid quarterly in arrears. [2015: S\$171,000] *Resolution 2*
3. To re-elect the following Directors retiring by rotation pursuant to Bye-Law 104 of the Company’s Bye-Laws:
 - (a) Mr Bon Ween Foong *Resolution 3*
 - (b) Mr Lim Eng Hoe *Resolution 4*

Mr Lim Eng Hoe is considered independent for the purpose of Rule 704(8) of the Listing Manual of Singapore Exchange Securities Trading Limited (“SGX-ST”).

Mr Lim will, upon re-election as a Director of the Company, remain as the Independent Director, Chairman of the Remuneration Committee and a member of the Audit Committee and Nominating Committee.
5. To re-appoint Deloitte & Touche LLP as auditors of the Company until the conclusion of next annual general meeting and to authorise the Directors to fix their remuneration. *Resolution 5*

AS SPECIAL BUSINESSES

To consider and, if thought fit, to pass the following ordinary resolutions with or without modifications:

6. **Authority to Allot and Issue Shares** *Resolution 6*

That pursuant to Rule 806 of the Listing Manual of the Singapore Exchange Securities Trading Limited (“SGX-ST”) and Bye-laws of the Company, the Directors of the Company be authorised and empowered to:-

 - (a) issue shares in the capital of the Company (“shares”) whether by way of bonus issue, rights issue or otherwise; and/or
 - (b) make or grant offers, agreements or options (collectively “Instruments”) that might or would require shares to be issued, including but not limited to the creation and issue of (as well as adjustments to) options, warrants, debentures or other instruments convertible into shares, at any time and upon such terms and conditions and for such purposes and to such persons as the Directors of the Company may in their absolute discretion deem fit; and
 - (c) (notwithstanding the authority conferred by this Resolution may have ceased to be in force) issue shares in pursuance of any Instrument made or granted by the Directors of the Company while this Resolution was in force,

(the “Share Issue Mandate”),

provided that:

 - (I) the aggregate number of shares (including shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution) and Instruments to be issued pursuant to this Resolution:-
 - (a) shall not exceed 50% of the total number of issued shares (excluding treasury shares) in the capital of the Company (as calculated in accordance with sub-paragraph (II) below), of which the aggregate number of shares and Instruments to be issued other than on a *pro rata* basis to existing shareholders of the Company shall not exceed 20% of the total number of issued shares (excluding treasury shares) in the capital of the Company (as calculated in accordance with sub-paragraph (II) below);
 - (II) (subject to such calculation as may be prescribed by the SGX-ST) for the purpose of determining the aggregate number of shares and Instruments that may be issued under paragraph (I) above, the total number of issued shares and Instruments shall be based on the number of issued shares (excluding treasury shares) in the capital of the Company at the time of the passing of this Resolution, after adjusting for:-
 - (a) new shares arising from the conversion or exercise of any Instruments or any convertible securities;

NOTICE OF ANNUAL GENERAL MEETING

- (b) new shares arising from exercising share options or vesting of share awards which are outstanding or subsisting at the time of the passing of this Resolution; and
- (c) any subsequent bonus issue, consolidation or subdivision of shares;
- (III) in exercising the Share Issue Mandate conferred by this Resolution, the Company shall comply with the provisions of the Listing Manual of the SGX-ST for the time being in force (unless such compliance has been waived by the SGX-ST) and the Bye-laws for the time being of the Company
- (IV) unless revoked or varied by the Company in a general meeting, the Share Issue Mandate shall continue in force (i) until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is earlier or (ii) in the case of shares to be issued in pursuance of the Instruments, made or granted pursuant to this Resolution, until the issuance of such shares in accordance with the terms of the Instruments

(See Explanatory Note 1)

7. Authority to grant options and to issue shares under the OKH Performance Share Plan

Resolution 7

That pursuant to the listing rules of the SGX-ST and Bye-laws of the Company, the Directors of the Company be authorised and empowered to offer and grant options under the OKH Performance Share Plan (the "OKH Share Plan"), and to issue from time to time such number of shares in the capital of the Company as may be required to be issued pursuant to the exercise of options granted by the Company under the OKH Share Plan, whether granted during the subsistence of this authority or otherwise, provided always that the aggregate number of additional ordinary shares to be issued pursuant to the OKH Share Plan shall not exceed 15% of the total number of issued shares (excluding treasury shares) of the Company from time to time, and that such authority shall, unless revoked or varied by the Company in a general meeting, continue in force until the conclusion of the next Annual General Meeting of the Company or the date by which the next Annual General Meeting of the Company is required by law to be held, whichever is earlier.

(See Explanatory Note 2)

- 8. To transact any other business which may properly be transacted at Annual General Meeting of the Company.

BY ORDER OF THE BOARD

Chew Kok Liang
Company Secretary
13 October 2015

Explanatory Notes:

1. Resolution No. 6, if passed, will empower the Directors of the Company from the date of this Annual General Meeting until the date of the next Annual General Meeting of the Company, or the date by which the next Annual General Meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is earlier, to issue shares, make or grant instruments convertible into shares, and to issue shares pursuant to such instruments, up to a number not exceeding, in total, 50% of the total number of issued shares (excluding treasury shares), of which up to 20% may be issued other than on a pro-rata basis to existing shareholders of the Company.

For determining the aggregate number of shares that may be issued, the percentage of issued shares in the capital of the Company will be calculated based on the total number of issued shares (excluding treasury shares) in the capital of the Company at the time this Resolution is passed after adjusting for new shares arising from the conversion or exercise of the Instruments or any convertible securities, the exercise of share options or the vesting of share awards outstanding or subsisting at the time when this Resolution is passed, and any subsequent consolidation or subdivision of shares.
2. Resolution No. 7, if passed, will empower the Directors of the Company, from the date of this Annual General Meeting until the date of the next Annual General Meeting of the Company, or the date by which the next Annual General Meeting of the Company is required by law to be held or such authority is varied or revoked by the Company in a general meeting, whichever is earlier, to issue shares in the Company pursuant to the exercise of options granted or to be granted under the OKH Share Plan up to a number not exceeding in total (for the entire duration of the OKH Share Plan) 15% of the total number of issued shares (excluding treasury shares) in the capital of the Company from time to time.
